Dear Ms. Avery,

*2<sup>nd</sup> Vice President*  
Jim Bianchi

I am writing on behalf of the Village of Orland Park to support the University of Chicago Medical Center's application to construct an outpatient care facility in Orland Park. The proposed facility would be a great addition to our community. Patients who currently travel a considerable distance to Chicago for cancer care, cardiology appointments, pediatric care, and other services, will have convenient access to high quality care near home

*Immediate Past President*  
Todd Probasco

The University of Chicago's nationally recognized programs in many areas, including cancer, GI, and treating complex diseases, will be greatly valued in our community. The University's new facility would be a significant boost for our local economy and will be a vital component of our re-energized downtown. We, The Orland Park Lions, enthusiastically support the project.
