RE: In support of Project #14-043 St. Elizabeth's Hospital's replacement hospital in O'Fallon, Illinois

Dear Ms. Avery,

In regard to St. Elizabeth's Hospital plans to build a replacement hospital in O'Fallon, I would like to share my support.

For many years St. Elizabeth's Hospital has cared for the residents of the Metro East region and there is no reason to think that this will stop. With the new location for the replacement hospital, it will provide for:

- better access for patients, doctors and other providers
- enhanced technology
- continue to fulfill the mission of the Hospital Sisters of St. Francis in caring for the sick, the poor and vulnerable.

I support the plans for St. Elizabeth's replacement hospital in O'Fallon and I urge you to approve this. Thank you for your attention.

Sincerely,

Sister Jamesine Lamb

RE: In support of Project #14-043 St. Elizabeth's Hospital's replacement hospital in O'Fallon

Dear Ms. Avery,

This letter is to express my sincere support of a replacement hospital so that St. Elizabeth's Hospital may better serve the people of the area. Given the delivery of health care today, with more high technology and a facility that can provide these demands as well as offer convenient outpatient and inpatient services, a land site different from the present landlocked area is needed.

The planners have taken many things into consideration including the plan to continue to serve the poor in this new location of just 7 miles away from the present location. The care of the sick, poor and needy have been and remains a hallmark of the mission of the Hospital Sisters of St. Francis.

Thank you and I urge you to approve St. Elizabeth's replacement hospital in O'Fallon to enhance health care for all residents of the Metro East region.

Sincerely,

Sister Mary L. Creedon, O.S.F.
