Re: State Board Report - 14-043

Dear Mike:

I am writing to note one error in the State Board Report. The report indicates St. Elizabeth's is proposing three (3) nuclear medicine machines (pg. 39) and that it can only support two (2), resulting in a negative finding on one criteria. In fact, the Hospital is only proposing two (2) nuclear medicine machines and can support same (see pg. 24 of the SBR and 298 and 299 of the Certificate of Need Application; note on page 300 of the application there is a reference to three nuclear medicine machines which is incorrect, and pgs. 298 and 299 make it clear the applicant proposes two machines).

Thank you.

Sincerely,

Clare Connor Ranalli
