Re: Project 14-043

Dear Mr. Constantino,

Enclosed is a map that shows the difference in drive times for residents living in poverty traveling to HSHS St. Elizabeth's proposed replacement hospital campus when compared to the current hospital campus.

The map provides a more detailed graphical representation of information provided in St. Elizabeth's November 11, 2014 response letter to Safety Net Impact comment submitted by the St. Clair County Health Department.

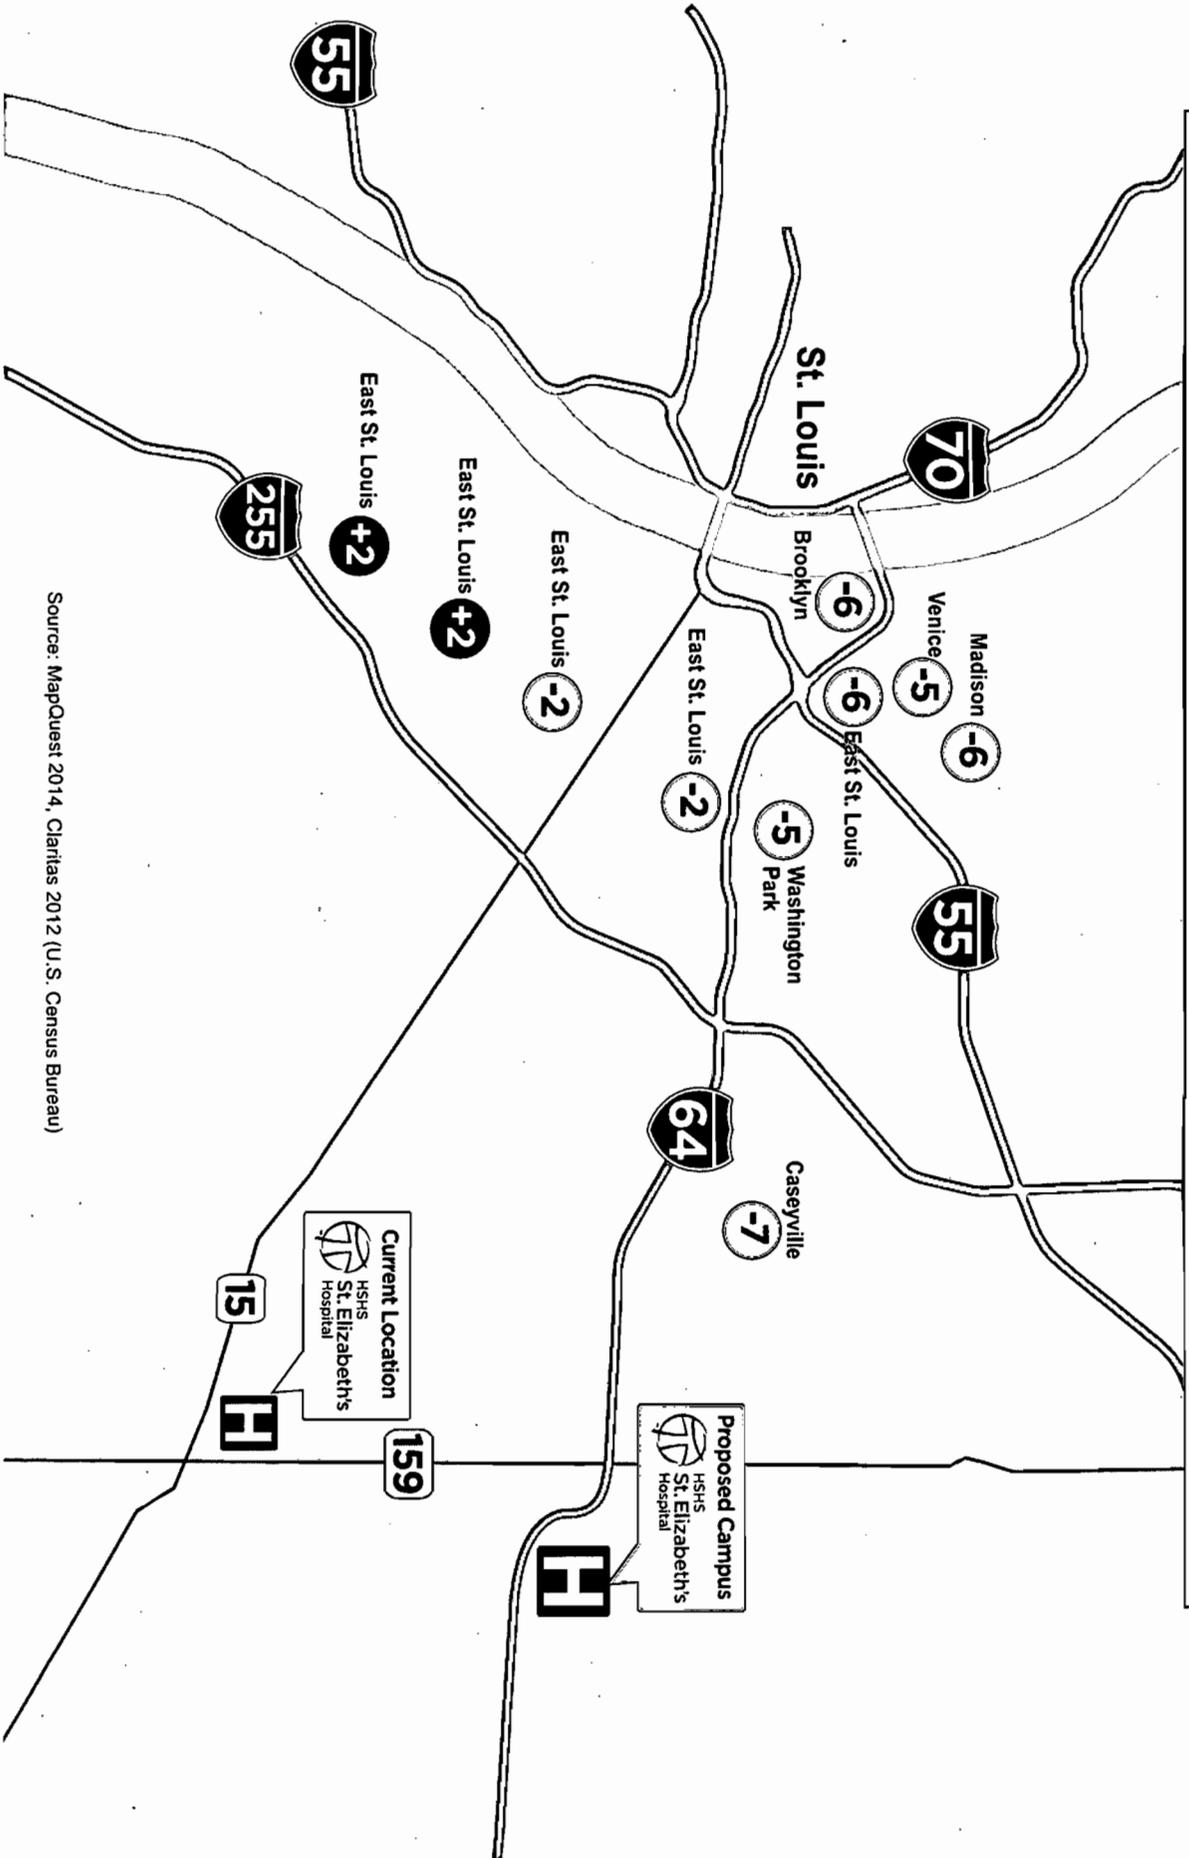

The enclosed map shows, in number of minutes, that drive times will decrease for residents living in eight of the 10 zip codes listed in Table 1 of the previously submitted letter. That table identifies the top 10 zip codes with the highest percentage of residents living below the poverty level.

Sincerely,
