RE: In Support of Project #14-043 St. Elizabeth's Hospital's replacement hospital in O'Fallon

Dear Ms. Avery:

I was pleased to learn of St. Elizabeth's Hospital's plans to build a region-leading, replacement hospital in O'Fallon. I am writing in support of this project.

I have lived in this area for the last five years. This is the area where I want to work as a nurse with a BSN quite soon (August 8th, 2015) not St. Louis where the big hospitals are.

My family and I have used St. Elizabeth's services in several occasions. I even did part of my clinical hours to become a CNA 2 years ago, and I shadowed the PICU for a potential job with them.

A replacement hospital will have numerous benefit for our community. We need better hospitals in the area. Why do we have to go to St. Louis to receive better care when we have the talent here? We just need the resources; the technology to become the next area to be.

There are many healthcare professionals in the area waiting for something like this. Please, consider all the advantages.

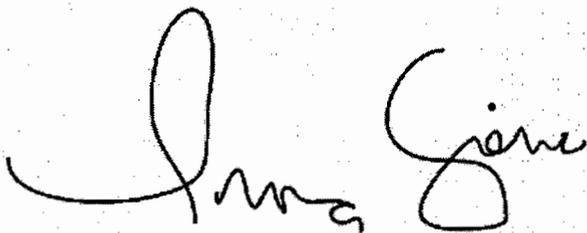

Thank you and I urge you to approve St. Elizabeth's replacement hospital in O'Fallon to enhance health care for all residents of the Metro East region.

Sincerely,

Mrs. Irma Sierra

RE: In Support of Project #14-043 St. Elizabeth's Hospital's replacement hospital in O'Fallon

Dear Ms. Avery:

As a resident of the metro east region, I am writing in support of St. Elizabeth's replacement hospital in O'Fallon, Illinois.

I have lived in the metro area all my life of 53 years. Both of my children were born at St E.

My immediate family as well as siblings and their children have used St Es service for decades.

The new location will provide much easier access to the entire region.

Building a new facility will allow St E to update services without disrupting current patients.

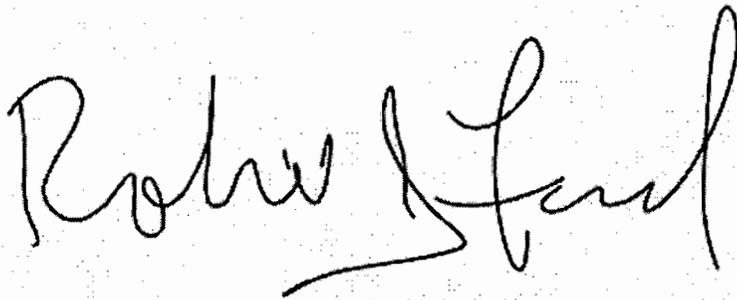

Thank you and I urge you to approve St. Elizabeth's replacement hospital in O'Fallon to enhance health care for all residents of the Metro East region.

Sincerely,

Mr. Robert Ford
