DESCRIPTION OF PROJECT**1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

Substantive

Non-substantive

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does NOT have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

The proposed project is for the discontinuation of Taylorville Memorial Hospitals Long Term Care unit which has 20 beds.

The anticipated date for the discontinuation, pending IHFSRB approval is March 1, 2015.

The project is classified as substantive based on rule 1110.40 because it will result in the discontinuation of the Long Term Care category of service within an existing health care facility.

There is no cost to this project and Part 1120 is not applicable to this project.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

SECTION II. DISCONTINUATION

This Section is applicable to any project that involves discontinuation of a health care facility or a category of service. **NOTE:** If the project is solely for discontinuation and if there is no project cost, the remaining Sections of the application are not applicable.

Criterion 1110.130 - Discontinuation

READ THE REVIEW CRITERION and provide the following information:

GENERAL INFORMATION REQUIREMENTS

1. Identify the categories of service and the number of beds, if any that is to be discontinued.
2. Identify all of the other clinical services that are to be discontinued.
3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.
4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.
5. Provide the anticipated disposition and location of all medical records pertaining to the services being discontinued, and the length of time the records will be maintained.
6. For applications involving the discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 60 days following the date of discontinuation.

REASONS FOR DISCONTINUATION

The applicant shall state the reasons for discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.130(b) for examples.

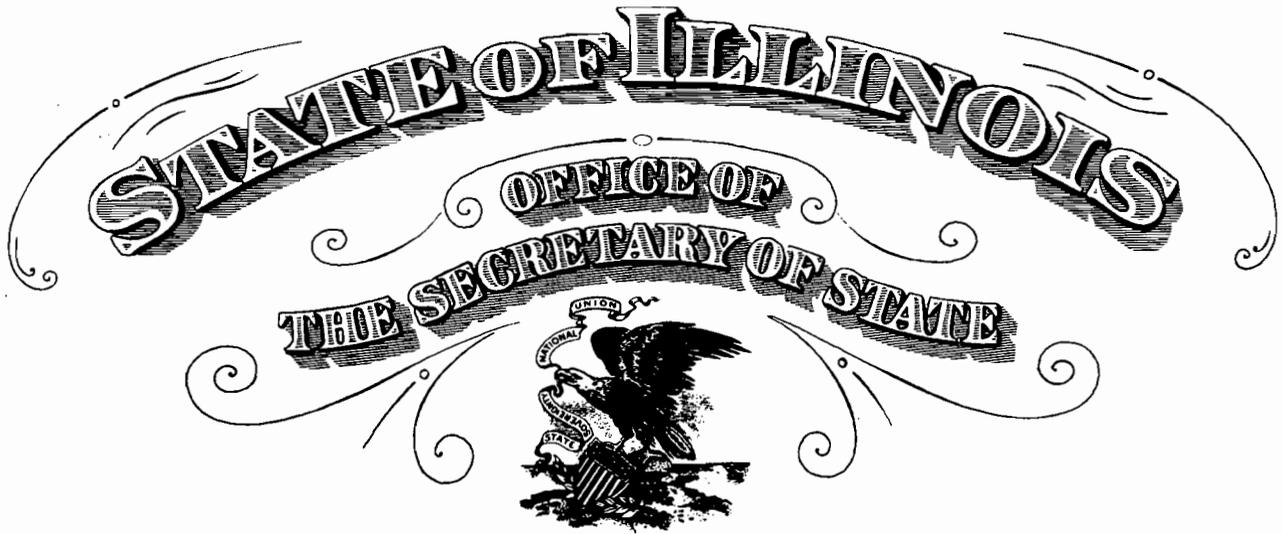

IMPACT ON ACCESS

1. Document that the discontinuation of each service or of the entire facility will not have an adverse effect upon access to care for residents of the facility's market area.
2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility.
3. Provide copies of impact statements received from other resources or health care facilities located within 45 minutes travel time, that indicate the extent to which the applicant's workload will be absorbed without conditions, limitations or discrimination.

Criterion 1110.130, Discontinuation

GENERAL INFORMATION REQUIREMENTS

1. This application is for the discontinuation of the Long-Term Care unit at Taylorville Memorial Hospital which has 20 beds.
2. No other clinical services will be discontinued.
3. The anticipated date for discontinuation of the 20-bed Long-Term Care unit is March 1, 2015.
4. The anticipated use of the vacated Long-Term Care Unit and equipment after discontinuation occurs is administrative office and meeting space and storage of equipment and supplies.
5. Regarding the medical records of the Long-Term Care patients after the service is discontinued; these will continue to be stored and maintained in the Health Information Management (Medical Records) department on the second floor of the Taylorville Memorial Hospital "A Building". The records will be maintained for five (5) years.
6. We will not be discontinuing the entire Taylorville Memorial Hospital facility.

REASONS FOR DISCONTINUATION

The discontinuation of the service is proposed for the following:

1. The service area is over-bedded with Long Term Care beds.
2. There is insufficient volume or demand for the service.
3. The Long Term Care service is not economically feasible and is impairing the facility's financial viability.

Service Area is Over-bedded

This discontinuation project will not have a material impact on access in the service area. The project will take 20 Long-Term Care beds out of service in the Christian County planning area where Taylorville Memorial Hospital is located and where there is a calculated excess of 47 beds. This project will reduce the calculated excess of Long-Term Care beds from 47 to 27 excess beds in the Christian County planning area

Furthermore, in the four counties contiguous to Christian County, calculated excesses exist as follows*:

Sangamon County = 27 excess LTC beds.

Montgomery County = 94 excess LTC beds.

Macon County = 79 excess LTC beds.

Shelby County = 58 excess LTC beds.

*Inventory of Health Care Facilities and Services and Need Determinations, General Long-Term Care Category of Service. (8/14/2013)

For the entire IDPH Health Service Area 3 in which the discontinuation will occur, there is a calculated excess of 812 Long-Term Beds, according to the latest Inventory of Health Care Facilities and Services and Need Determinations Summary of General Long-Term Nursing Care Beds and Need by Health Service Area.(8/14/2013)

In total, there are 33 facilities that provide Long-Term Care services located within 45 minutes travel time of Taylorville Memorial Hospital. The average daily census of the Taylorville Memorial Hospital Long-Term Care unit in Calendar Year 2013 was 10.4 patients. These 10.4 patients per day have ample access to other existing Long-Term Care beds in Christian County where the other four existing Long-Term Care facilities would have to increase their collective daily patient census by sixty (60) patients a day to all attain the State's 90% occupancy target.

If Christian county residents wished to go to other facilities outside the county, there are an additional 29 existing Long-Term Care facilities located within 45 minutes travel time of Taylorville Memorial Hospital located in Christian, Sangamon, Montgomery, Macon and Shelby counties. Twenty three (23) of these 29 facilities are operating below the State's 90% occupancy target and could absorb additional patients.

Insufficient Demand for Service

The average occupancy for the 20 Taylorville Memorial Hospital Long Term Care Beds for the last three years follows:

	<u>CY2011</u>	<u>CY2012</u>	<u>CY2013</u>
Days	4,586	4,160	3,792
Occupancy %	62.8%	57.0%	51.9%
Average Daily Census	12.6	11.4	10.4

*IDPH Annual Hospital Profiles

Service Not Economically Feasible

The Long Term Care service at Taylorville Memorial Hospital is no longer economically feasible and is impairing the facility's financial viability. The annual net negative financial impact of maintaining the Long Term Care unit exceeds \$1,000,000 per year.

IMPACT ON ACCESS

1. The discontinuation of Long Term Care services at Taylorville Memorial Hospital will not have an adverse impact upon access to care for residents of the Christian county market area or on patients located within 45 minutes of the hospital.

The project will take 20 Long Term Care beds with an Average Daily Census of 10.4 patients out of service in Christian County where the other four existing Long-Term Care facilities would need to increase their collective Average Daily Census by 60 patients to meet the State's 90% occupancy target. In the Christian County planning area where Taylorville Memorial Hospital is located, there is a calculated excess of 47 Long-Term Care beds. This project would reduce the excess capacity from 47 to 27 excess beds.

Furthermore, in the four counties contiguous to Christian County, calculated excesses exist as follows*:

Sangamon County = 27 excess LTC beds.

Montgomery County = 94 excess LTC beds.

Macon County = 79 excess LTC beds.

Shelby County = 58 excess LTC beds.

*Inventory of Health Care Facilities and Services and Need Determinations, General Long-Term Care Category of Service. (8/14/2013)

IDPH Health Service Area 3, where the project would occur, has a calculated an excess of 812 Long-Term Beds according to the latest Inventory of Health Care Facilities and Services and Need Determinations Summary of General Long-Term Nursing Care Beds and Need by Health Service Area.(8/14/2013)

Including the 4 facilities in Christian County, there are a total of 33 facilities that provide Long-Term Care services located within 45 minutes travel time of Taylorville Memorial Hospital. The average daily census of the Taylorville Memorial Hospital Long-Term Care unit in Calendar Year 2013 was 10.4 patients. These 10.4 patients per day have ample access to other existing Long-Term Care beds in Christian County where the other

4 existing Long-Term Care facilities would need to increase their utilization by 60 patients per day to all reach the State's 90% utilization standard. In addition, 23 of the other 29 existing facilities located within 45 minutes travel time of Taylorville Memorial Hospital in Sangamon, Montgomery, Macon and Shelby counties are below the State's 90% utilization standard and could easily absorb the affected patients.

2. A letter was sent to the 33 facilities located within 45 minutes travel time from Taylorville Memorial Hospital that provide Long Term Care services requesting impact statements regarding how the proposed discontinuation would impact those facilities.
3. Letters from all the facilities that responded with impact statements are appended to this attachment. These document that the Taylorville Memorial Hospital's Long Term Care workload will easily be absorbed by other existing nearby facilities.

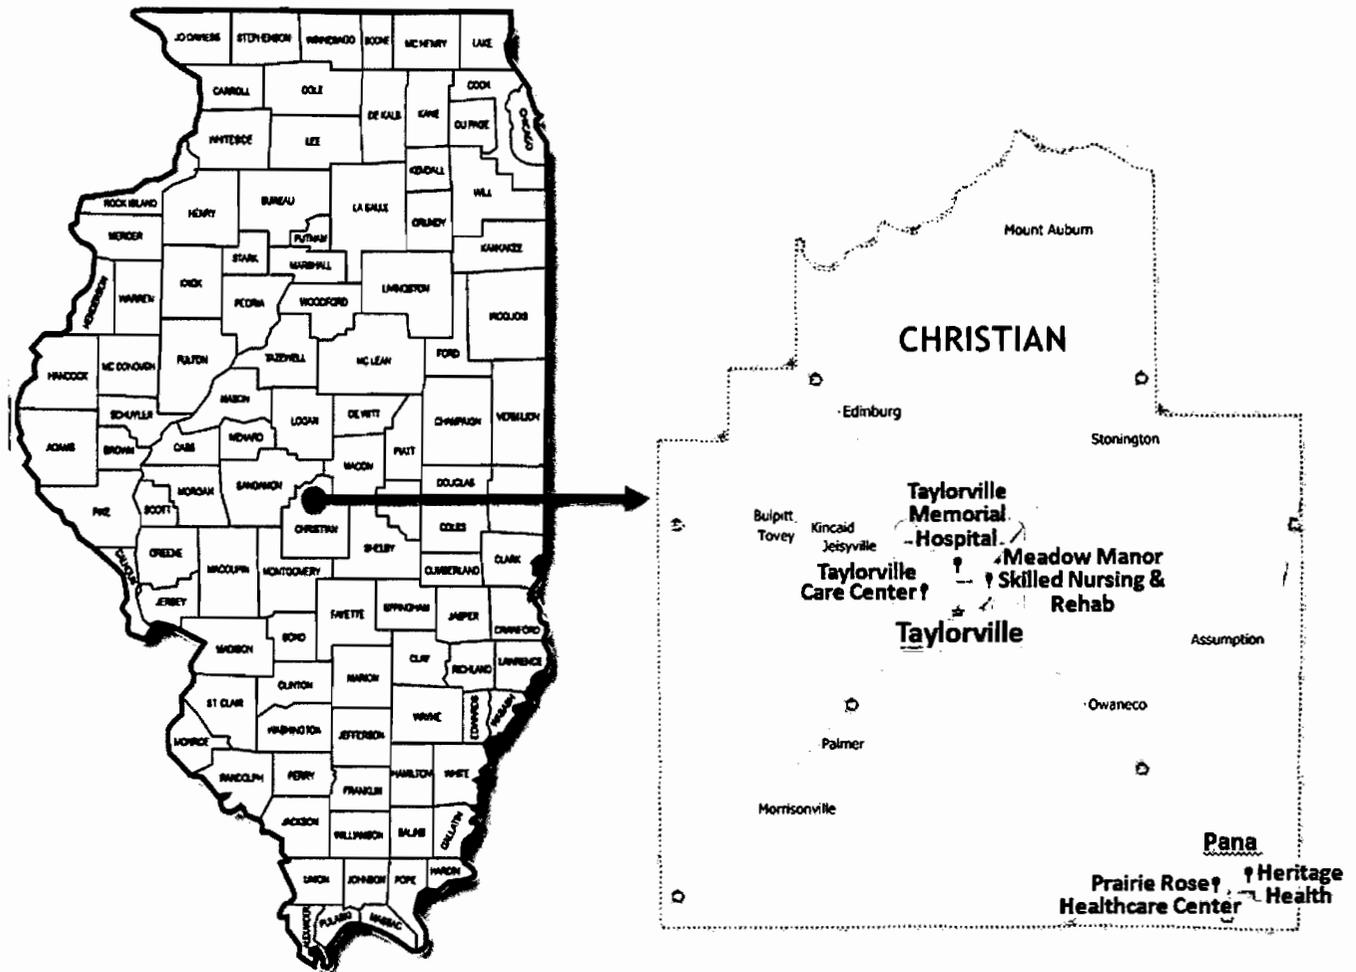

The table lists the 33 facilities located within 45 minutes travel time listed by location, distance (based on MapQuest), number of beds and occupancy rates.

There is a large amount of excess capacity within 45 minutes travel time of the applicant. In fact, there is sufficient excess capacity in facilities located in Christian County within 20 minutes travel time to easily absorb the 10.4 average daily Long-Term Care census of Taylorville Memorial Hospital.

Re: Discontinuation of Long-Term Care beds in Taylorville Memorial Hospital

Dear Mr. Raab:

I am writing in response to your letter regarding the planned discontinuation of 20 long-term care beds at Taylorville Memorial Hospital.

Meadow Manor Skilled Nursing & Rehab has sufficient capacity to accommodate the needs of all or a significant portion of Taylorville Memorial Hospital's historical caseload of patients requiring long-term care services. Meadow Manor Skilled Nursing & Rehab can meet this need without restriction or limitations that would preclude us from providing long-term care services to residents of the Christian County market area.

**XI. Safety Net Impact Statement
ATTACHMENT - 40**

1. The project's material impact, if any, on essential safety net services in the community.

Health Safety Net Services have been defined as services provided to patients who are low-income and otherwise vulnerable, including those uninsured and cover by Medicaid (Agency for Healthcare Research and Quality, Public Health Services, U. S. Department of health and Human Services. "The Safety Net Monitoring Initiative," AHRQ Pub. No. 03-P011, August, 2003)

This discontinuation project will not have a material impact on essential safety net services in the community. The project will take 20 Long Term Care beds out of service in IDPH Health Service Area 3 where there is a calculated excess of 812 Long Term Beds according to the latest Inventory of Health Care Facilities and Services and Need Determinations Summary of General Long-Term Nursing Care Beds and Need by Health Service Area.(8/14/2013)

Moreover, in the Christian County planning area where Taylorville Memorial Hospital is located, there is a calculated excess of 47 and in the four counties contiguous to Christian County, calculated excesses exist as follows*:

Sangamon County = 27 excess LTC beds.
Montgomery County = 94 excess LTC beds.
Macon County = 79 excess LTC beds.
Shelby County = 58 excess LTC beds.

*Inventory of Health Care Facilities and Services and Need Determinations, General Long-Term Care Category of Service. (8/14/2013)

There are 33 facilities that provide Long-Term Care services located within 45 minutes travel time of Taylorville Memorial Hospital. The average daily census of the Taylorville Memorial Hospital Long-Term Care unit in Calendar Year 2012 was 11.4 patients. These 11.4 patients per day have ample access to other existing Long-Term Care beds in other 33 existing facilities located within 45 minutes travel time of Taylorville Memorial Hospital located in Christian, Sangamon, Montgomery, Macon and Shelby counties.

As documented in Attachment – 10, all of the facilities that responded to the applicants request for letters describing the impact of the proposed discontinuation project on their facilities responded positively that the discontinuation would not have an adverse effect upon access to care for residents of the applicant's market area or negatively impact their facilities. All indicated that they have capacity to accept any patients referred to them in the future.

2. **The project's impact on the ability of another provider of health care system to cross-subsidize safety net services.**

This project will not have any impact on other providers or health care systems and, as such, it will not have any impact on other providers' or health care systems' abilities to cross-subsidize safety net services.

3. **How the discontinuation of a facility or service might impact the remaining safety net providers in a given community.**

This discontinuation project will not have a material impact on the remaining safety net providers in the community. The project will take 20 Long Term Care beds out of service in IDPH Health Service Area 3 where there is a calculated excess of 812 Long Term Beds according to the latest Inventory of Health Care Facilities and Services and Need Determinations Summary of General Long-Term Nursing Care Beds and Need by Health Service Area.(8/14/2013)

Moreover, in the Christian County planning area where Taylorville Memorial Hospital is located, there is a calculated excess of 47 and in the four counties contiguous to Christian County, calculated excesses exist as follows*:

As documented in Attachment – 10, all of the facilities that responded to the applicants request for letters describing the impact of the proposed discontinuation project on their facilities responded positively that the discontinuation would not have an adverse effect upon access to care for residents of the applicant's market area or negatively impact their facilities. All indicated that they have capacity to accept any patients referred to them in the future

XI. Safety Net Impact Statement – ATTACHMENT 40

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three audited fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care must be provided at cost.
