HEALTH FACILITIES & SERVICES REVIEW BOARD

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

This Section must be completed for all projects.

Facility/Project Identification

Facility Name:	Centegra Hospital - Huntley	
Street Address:	10400 Haligus Road	
City and Zip Code:	Huntley 60142	
County: McHenry	Health Service Area: HSA-08	Health Planning Area: A-10

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name:	Centegra Hospital - Huntley
Address:	10400 Haligus Road, Huntley, IL 60142
Name of Registered Agent:	Mr. Michael S. Eesley, FACHE
Name of Chief Executive Officer:	Mr. Michael S. Eesley, FACHE
CEO Address:	385 Millennium Drive, Crystal Lake, IL 60012
Telephone Number:	(815)788-5825

Type of Ownership of Applicant/Co-Applicant

☒	Non-profit Corporation	☐	Partnership		
☐	For-profit Corporation	☐	Governmental		
☐	Limited Liability Company	☐	Sole Proprietorship	☐	Other

- Corporations and limited liability companies must provide an **Illinois certificate of good standing.**
- Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Fax Number:	(312)759-5646

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name:	Northern Illinois Medical Center d/b/a Centegra Hospital - McHenry
Address:	4201 Medical Center Drive, McHenry, IL 60050
Name of Registered Agent:	Mr. Michael S. Eesley, FACHE
Name of Chief Executive Officer:	Mr. Michael S. Eesley, FACHE
CEO Address:	385 Millennium Drive, Crystal Lake, IL 60012
Telephone Number:	(815)788-5825

Type of Ownership of Applicant/Co-Applicant

- ☒ Non-profit Corporation
- ☐ For-profit Corporation
- ☐ Limited Liability Company
- ☐ Partnership
- ☐ Governmental
- ☐ Sole Proprietorship
- ☐ Other

- Corporations and limited liability companies must provide an **Illinois certificate of good standing.**
- Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name:	Memorial Medical Center – Woodstock d/b/a Centegra Hospital - Woodstock
Address:	3701 Doty Road, Woodstock, IL 60098
Name of Registered Agent:	Mr. Michael S. Eesley, FACHE
Name of Chief Executive Officer:	Mr. Michael S. Eesley, FACHE
CEO Address:	385 Millennium Drive, Crystal Lake, IL 60012
Telephone Number:	(815)788-5825

Type of Ownership of Applicant/Co-Applicant

☒ Non-profit Corporation ☐ Partnership
☐ For-profit Corporation ☐ Governmental
☐ Limited Liability Company ☐ Sole Proprietorship ☐ Other

- Corporations and limited liability companies must provide an **Illinois certificate of good standing.**
- Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name:	Centegra Health System
Address:	385 Millennium Drive, Crystal Lake, IL 60012
Name of Registered Agent:	Mr. Michael S. Eesley, FACHE
Name of Chief Executive Officer:	Mr. Michael S. Eesley, FACHE
CEO Address:	385 Millennium Drive, Crystal Lake, IL 60012
Telephone Number:	(815)788-5825

Type of Ownership of Applicant/Co-Applicant

☒ Non-profit Corporation ☐ Partnership
☐ For-profit Corporation ☐ Governmental
☐ Limited Liability Company ☐ Sole Proprietorship ☐ Other

- Corporations and limited liability companies must provide an **Illinois certificate of good standing.**

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Post Permit Contact

[Person to receive all correspondence subsequent to permit issuance-**THIS PERSON MUST BE EMPLOYED BY THE LICENSED HEALTH CARE FACILITY AS DEFINED AT 20 ILCS 3960**

Name:	Ms. Hadley Streng
Title:	Director, Planning and Business Development
Company Name:	Centegra Health System
Address:	385 Millennium Drive, Crystal Lake, IL 60012
Telephone Number:	(815)788-5858
E-mail Address:	hstreng@centegra.com
Fax Number:	(815)788-5263

Site Ownership

[Provide this information for each applicable site]

Exact Legal Name of Site Owner: NIMED Corp.

Address of Site Owner: 385 Millennium Drive, Crystal Lake, IL 60012

Street Address or Legal Description of Site:10400 Haligus Road, Huntley, IL 60142

Proof of ownership or control of the site is to be provided as Attachment 2. Examples of proof of ownership are property tax statement, tax assessor's documentation, deed, notarized statement of the corporation attesting to ownership, an option to lease, a letter of intent to lease or a lease.

APPEND DOCUMENTATION AS ATTACHMENT-2, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Operating Identity/Licensee

[Provide this information for each applicable facility, and insert after this page.]

Exact Legal Name: Centegra Hospital - Huntley

Address: 10400 Haligus Road, Huntley, IL 60142

- ☒ Non-profit Corporation
- ☐ For-profit Corporation
- ☐ Limited Liability Company
- ☐ Partnership
- ☐ Governmental
- ☐ Sole Proprietorship
- ☐ Other

- Corporations and limited liability companies must provide an Illinois Certificate of Good Standing.
- Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.
- **Persons with 5 percent or greater interest in the licensee must be identified with the % of ownership.**

APPEND DOCUMENTATION AS ATTACHMENT-3, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Flood Plain Requirements

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at **www.FEMA.gov** or **www.illinoisfloodmaps.org. This map must be in a readable format**. In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 **(http://www.hfsrb.illinois.gov)**.

APPEND DOCUMENTATION AS ATTACHMENT -5, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Historic Resources Preservation Act Requirements

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS ATTACHMENT-6, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

DESCRIPTION OF PROJECT

1. Project Classification

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

☒ Substantive

☐ Non-substantive

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does NOT have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

This project proposes to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 (Project #10-090) and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley. Centegra Health System is seeking to establish one cardiac catheterization laboratory at Centegra Hospital – Huntley under the multi-institutional variance criterion in order to alleviate excessively high demands on the existing program at Centegra Hospital - McHenry.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

The proposed Cardiac Catheterization suite will be located adjacent to the surgical suite utilizing a portion of the space formerly designated for Central Sterile Processing and Distribution.

This project is "Substantive" in accordance with the Illinois Health Facilities Planning Act (20 ILCS 3960/12(8)(b)) because it proposes to establish a new service.

Project completion will be coordinated with Project #10-090, Centegra Hospital – Huntley, and is anticipated to be operational by September 30, 2016.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds			
USE OF FUNDS	**CLINICAL**	**NONCLINICAL**	**TOTAL**
Preplanning Costs	$47,336	$0	$47,336
Site Survey and Soil Investigation	$0	$0	$0
Site Preparation	$0	$0	$0
Off Site Work	$0	$0	$0
New Construction Contracts	$0	$0	$0
Modernization Contracts	$680,680	$0	$680,680
Contingencies	$68,068	$0	$68,068
Architectural/Engineering Fees	$81,682	$0	$81,682
Consulting and Other Fees	$375,000	$0	$375,000
Movable or Other Equipment (not in construction contracts)	$1,900,300	$0	$1,900,300
Bond Issuance Expense (project related)	$0	$0	$0
Net Interest Expense During Construction (project related)	$0	$0	$0
Fair Market Value of Leased Space or Equipment	$0	$0	$0
Other Costs To Be Capitalized	$0	$0	$0
Acquisition of Building or Other Property (excluding land)	$0	$0	$0
TOTAL USES OF FUNDS	$3,153,066	$0	$3,153,066
SOURCE OF FUNDS	**CLINICAL**	**NONCLINICAL**	**TOTAL**
Cash and Securities	$3,153,066	$0	$3,153,066
Pledges	$0	$0	$0
Gifts and Bequests	$0	$0	$0
Bond Issues (project related)	$0	$0	$0
Mortgages	$0	$0	$0
Leases (fair market value)	$0	$0	$0
Governmental Appropriations	$0	$0	$0
Grants	$0	$0	$0
Other Funds and Sources	$0	$0	$0
TOTAL SOURCES OF FUNDS	$3,153,066	$0	$3,153,066

NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Related Project Costs

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project ☐ Yes ☒ No
Purchase Price: $_____
Fair Market Value: $_____

The project involves the establishment of a new facility or a new category of service
☒ Yes ☐ No

If yes, provide the dollar amount of all **non-capitalized** operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.

Estimated start-up costs and operating deficit cost is $ 70,000 .

Project Status and Completion Schedules

For facilities in which prior permits have been issued please provide the permit numbers.

Indicate the stage of the project's architectural drawings:

☐ None or not applicable ☐ Preliminary
☒ Schematics ☐ Final Working

Anticipated project completion date (refer to Part 1130.140): December 31, 2016

Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):

Not applicable because this project does not include any capital expenditure.

☐ Purchase orders, leases or contracts pertaining to the project have been executed.
☐ Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies
☒ Project obligation will occur after permit issuance.

APPEND DOCUMENTATION AS ATTACHMENT-8, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

State Agency Submittals

Are the following submittals up to date as applicable:
☒ Cancer Registry
☒ APORS
☒ All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted
☒ All reports regarding outstanding permits
Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.

Cost Space Requirements

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

		Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
Dept. / Area	**Cost**	**Existing**	**Proposed**	**New Const.**	**Modernized**	**As Is**	**Vacated Space**
REVIEWABLE							
Medical Surgical							
Intensive Care							
Diagnostic Radiology							
MRI							
Total Clinical							
NON REVIEWABLE							
Administrative							
Parking							
Gift Shop							
Total Non-clinical							
TOTAL							

APPEND DOCUMENTATION AS ATTACHMENT-9, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Facility Bed Capacity and Utilization

Complete the following chart, as applicable. Complete a separate chart for each facility that is a part of the project and insert following this page. Provide the existing bed capacity and utilization data for the latest **Calendar Year for which the data are available. Include observation days in the patient day totals for each bed service.** Any bed capacity discrepancy from the Inventory will result in the application being deemed **incomplete**.

1. A CON permit was granted to Centegra Hospital – Woodstock on April 22, 2014 (Project No. 14-004), to discontinue its Obstetrics Category of Service and establish Acute Mental Illness Category of Service.

CERTIFICATION

The application must be signed by the authorized representative(s) of the applicant entity. The authorized representative(s) are:

- in the case of a corporation, any two of its officers or members of its Board of Directors;
- in the case of a limited liability company, any two of its managers or members (or the sole manger or member when two or more managers or members do not exist);
- in the case of a partnership, two of its general partners (or the sole general partner, when two or more general partners do not exist);
- in the case of estates and trusts, two of its beneficiaries (or the sole beneficiary when two or more beneficiaries do not exist); and
- in the case of a sole proprietor, the individual that is the proprietor.

This Application for Permit is filed on the behalf of Centegra Hospital – Huntley * in accordance with the requirements and procedures of the Illinois Health Facilities Planning Act. The undersigned certifies that he or she has the authority to execute and file this application for permit on behalf of the applicant entity. The undersigned further certifies that the data and information provided herein, and appended hereto, are complete and correct to the best of his or her knowledge and belief. The undersigned also certifies that the permit application fee required for this application is sent herewith or will be paid upon request.

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals **as appropriate**.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Board Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

ALTERNATIVES

1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

A) Proposing a project of greater or lesser scope and cost;

B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;

C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and

D) Provide the reasons why the chosen alternative was selected.

2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**

3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE

Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space

READ THE REVIEW CRITERION and provide the following information:

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**

2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following::

   a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;

   b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;

   c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. **A narrative of the rationale that supports the projections must be provided.**

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

UNFINISHED OR SHELL SPACE:

NOT APPLICABLE

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF tot be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
   a. Requirements of governmental or certification agencies; or
   b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
   a. Historical utilization for the area for the latest five-year period for which data are available; and
   b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-16, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

ASSURANCES:

NOT APPLICABLE

Submit the following:

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-17, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

F. Criterion 1110.1330 - Cardiac Catheterization

This section is applicable to all projects proposing to establish or modernize a cardiac catheterization category of service or to replace existing cardiac catheterization equipment.

1. **Criterion 1110.1330(a), Peer Review**

   Read the criterion and submit a detailed explanation of your peer review program.

2. **Criterion 1110.1330(b), Establishment or Expansion of Cardiac Catheterization Service**

   Read the criterion and, if applicable, submit the following information:

   a. A map (8 1/2" x 11") showing the location of the other hospitals providing cardiac catheterization service within the planning area.

   b. The number of cardiac catheterizations performed for the last l2 months at each of the hospitals shown on the map.

   c. Provide the number of patients transferred directly from the applicant's hospital to another facility for cardiac catheterization services in each of the last three years.

3. **Criterion 1110.1330(c), Unnecessary Duplication of Services**

   Read the criterion and, if applicable, submit the following information.

   a. Copies of the letter sent to all facilities within 90 minutes travel time which currently provide cardiac catheterization. This letter must contain a description of the proposed project and a request that the other facility quantify the impact of the proposal on its program.

   b. Copies of the responses received from the facilities to which the letter was sent.

4. **Criterion 1110.1330(d), Modernization of Existing Cardiac Catheterization Laboratories**

   Read the criterion and, if applicable, submit the number of cardiac catheterization procedures performed for the latest 12 months.

5. **Criterion 1110.1330(e), Support Services**

   Read the criterion and indicate on a service by service basis which of the listed services are available on a 24 hour basis and explain how any services not available on a 24 hour basis will be available when needed.

6. **Criterion 1110.1330(f), Laboratory Location**

   Read the criterion and, if applicable, submit line drawings showing the location of the proposed laboratories. If the laboratories are not in close proximity explain why.

7. **Criterion 1110.1330(g), Staffing**

   Read the criterion and submit a list of names and qualifications of those who will fill the positions detailed in this criterion. Also provide staffing schedules to show the coverage required by this criterion.

8. **Criterion 1110.1330(h), Continuity of Care**

Read the criterion and submit a copy of the fully executed written referral agreement(s).

9. Criterion 1110.1330(i), Multi-institutional Variance

Read the criterion and, if applicable, submit the following information:

a. A copy of a fully executed affiliation agreement between the two facilities involved.

b. Names and positions of the shared staff at the two facilities.

c. The volume of open heart surgeries performed for the latest 12-month period at the existing operating program.

d. A cost comparison between the proposed project and expansion at the existing operating program.

e. The number of cardiac catheterization procedures performed in the last 12 months at the operating program.

f. The number of catheterization laboratories at the operating program.

g. The projected cardiac catheterization volume at the proposed facility annually for the next 2 years.

h. The basis for the above projection.

APPEND DOCUMENTATION AS ATTACHMENT-25 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The following Sections DO NOT need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- **Section 1120.120 Availability of Funds – Review Criteria**
- **Section 1120.130 Financial Viability – Review Criteria**
- **Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)**

VIII. - 1120.120 - Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: **Indicate the dollar amount to be provided from the following sources:**

_____	a)	Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to: 1) the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and 2) interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;
_____	b)	Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
_____	c)	Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
_____	d)	Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including: 1) For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated; 2) For revenue bonds, proof of the feasibility of securing the specified amount and interest rate; 3) For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.; 4) For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment; 5) For any option to lease, a copy of the option, including all terms and conditions.
_____	e)	Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;
_____	f)	Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
_____	g)	All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.
		TOTAL FUNDS AVAILABLE

APPEND DOCUMENTATION AS ATTACHMENT-36, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. 1120.130 - Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

The applicant is not required to submit financial viability ratios if:

1. **"A" Bond rating or better**
2. **All of the projects capital expenditures are completely funded through internal sources**
3. **The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent**
4. **The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.**

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS ATTACHMENT-37, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which **audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion.** When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS ATTACHMENT 38, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility

This section is applicable to all projects subject to Part 1120.

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or

2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:

A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or

B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

1) That the selected form of debt financing for the project will be at the lowest net cost available;

2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;

3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. **Reasonableness of Project and Related Costs**

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Cost/Square Foot Mod.	Gross Sq. Ft. New	Gross Sq. Ft. Circ.*	Gross Sq. Ft. Mod.	Gross Sq. Ft. Circ.*	Const. $ (A x C)	Mod. $ (B x E)	
Contingency									
TOTALS									
* Include the percentage (%) of space for circulation									

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot		Gross Sq. Ft.		Gross Sq. Ft.		Const. $ (A x C)	Mod. $ (B x E)	
	New	Mod.	New	Circ.*	Mod.	Circ.*			
Cardiac Catheterization	n/a	$385.00	n/a	n/a	1,768	n/a	n/a	$680,680	$680,680
Contingency	n/a	$38.50	n/a	n/a	n/a	n/a	n/a	$68,068	$68,068
TOTALS	n/a	$423.50	n/a	n/a	1,768	n/a	n/a	$748,748	$748,748
* Include the percentage (%) of space for circulation									

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT -39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.

2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.

3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.

2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.

3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	**Year**	**Year**	**Year**
Inpatient			
Outpatient			
Total			
Charity (cost In dollars)			
Inpatient			
Outpatient			
Total			
MEDICAID			
Medicaid (# of patients)	**Year**	**Year**	**Year**
Inpatient			
Outpatient			

Total			
Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

APPEND DOCUMENTATION AS ATTACHMENT-40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care information MUST be furnished for ALL projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.

2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.

3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care must be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care			

APPEND DOCUMENTATION AS ATTACHMENT-41, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

After paginating the entire, completed application, indicate in the chart below, the page numbers for the attachments included as part of the project's application for permit:

INDEX OF ATTACHMENTS

I.
Organizational Relationships

This project has 4 co-applicants:
Centegra Hospital – Huntley
Centegra Hospital – McHenry
Centegra Hospital – Woodstock
Centegra Health System

As will be seen on the Organizational Chart that appears on the following page and as discussed in Attachment 11, Centegra Health System is the sole corporate member of Centegra Hospital – Huntley, Centegra Hospital – McHenry and Centegra Hospital – Woodstock.

Centegra Health System currently operates 3 hospitals: Northern Illinois Medical Center d/b/a Centegra Hospital - McHenry; Memorial Medical Center – Woodstock d/b/a Centegra Hospital - Woodstock; and Memorial Medical Center - Woodstock d/b/a Centegra Specialty Hospital - Woodstock, South Street. Centegra Health System also is the sole corporate member of Centegra Hospital – Huntley which was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 but is not yet operational.

A Corporate Organization Chart will be found on the next page.

CORPORATE STRUCTURE AND GOVERNANCE

I.
Flood Plain Requirements

The following pages of this Attachment include the most recent documents this project's compliance with the requirements of Illinois Executive Order #2006-5 pertaining to construction activities in special flood hazard areas.

These documents include an Illinois State Water Survey Special Flood Hazard Area Determination dated December 26, 2006, stating that Centegra Health System's Huntley campus, on which Centegra Hospital Huntley will be located, is not located in a Special Flood Hazard Area. A Flood Insurance Rate Map (FIRM) for Centegra Health System's Huntley campus, documenting the same is attached on pages 2 – 5 of this Attachment.

A review of the FEMA website indicates that, as of October 20, 2014, this FEMA Flood Insurance Rate Map remains effective.

A statement attesting to the project's compliance with the requirements of Illinois Executive Order #2006-5, Construction Activities in Special Flood Hazard Areas, is found on Page 6 of this Attachment.

Site description of determination:
Site address: NE corner Huntley-Algonquin Road and future Haligus Road.
City, state, zip: Huntley, IL
County: McHenry Sec¼: NE¼ Section: 27 T. 43 N. R. 7 E. PM: 3rd
Subject area: Area described in Schedule "A" datestamped 8/21/06, attached. (The NE 1/4 Sec. 27 except the W 40 ft thereof and except approximately the S 1400 ft of the E 1400 ft thereof, south of Reed Road and north of Huntley-Algonquin Rd).

The property described above IS NOT located in a Special Flood Hazard Area or a shaded Zone X floodzone.
Floodway mapped: Yes Floodway on property: No
Sources used: FEMA Flood Insurance Rate Map (FIRM); Village of Huntley Zoning Map 3/30/2006 (www.huntley.il.us).
Community name: McHenry County Uninc. Areas, IL Community number: 170732
Panel/map number: 17111C0320 J Effective Date: November 16, 2006
Flood zone: X [unshaded] Base flood elevation: N/A ft NGVD 1929

N/A a. The community does not currently participate in the National Flood Insurance Program (NFIP). NFIP flood insurance is not available; certain State and Federal assistance may not be available.
N/A b. Panel not printed: no Special Flood Hazard Area on the panel (panel designated all Zone C or unshaded X).
N/A c. No map panels printed: no Special Flood Hazard Areas within the community (NSFHA).

The primary structure on the property:
N/A d. Is located in a Special Flood Hazard Area. Any activity on the property must meet State, Federal, and local floodplain development regulations. Federal law requires that a flood insurance policy be obtained as a condition of a federally-backed mortgage or loan that is secured by the building.
N/A e. Is located in shaded Zone X or B (500-yr floodplain). Conditions may apply for local permits or Federal funding.
X f. Is not located in a Special Flood Hazard Area or a 500-year floodplain. (Flood insurance may still be available.)
N/A g. A determination of the building's exact location cannot be made on the current FEMA flood hazard map.
N/A h. Exact structure location is not available or was not provided for this determination.

Note: This determination is based on the current Federal Emergency Management Agency (FEMA) flood hazard map for the community. This letter does not imply that the referenced property will or will not be free from flooding or damage. A property or structure not in a Special Flood Hazard Area may be damaged by a flood greater than that predicted on the FEMA map or by local drainage problems not mapped. This letter does not create liability on the part of the Illinois State Water Survey, or employee thereof for any damage that results from reliance on this determination. This letter does not exempt the project from local stormwater management regulations.

Questions concerning this determination may be directed to Bill Saylor (217/333-0447) at the Illinois State Water Survey. Questions concerning requirements of Governor's Executive Order 5 (2006), or State floodplain regulations, may be directed to John Lentz (847/608-3100) at the IDNR Office of Water Resources.

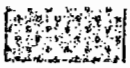
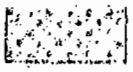
LEGEND



SPECIAL FLOOD HAZARD AREAS (SFHAs) SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD

The 1% annual chance flood (100-year flood), also known as the base flood, is the flood that has a 1% chance of being equaled or exceeded in any given year. The Special Flood Hazard Area is the area subject to flooding by the 1% annual chance flood. Areas of Special Flood Hazard include Zones A, AE, AH, AO, AR, A99, V, and VE. The Base Flood Elevation is the water-surface elevation of the 1% annual chance flood.

ZONE A	No Base Flood Elevations determined.
ZONE AE	Base Flood Elevations determined.
ZONE AH	Flood depths of 1 to 3 feet (usually areas of ponding); Base Flood Elevations determined.
ZONE AO	Flood depths of 1 to 3 feet (usually sheet flow on sloping terrain); average depths determined. For areas of alluvial fan flooding, velocities also determined.
ZONE AR	Special Flood Hazard Areas formerly protected from the 1% annual chance flood by a flood control system that was subsequently decertified. Zone AR indicates that the former flood control system is being restored to provide protection from the 1% annual chance or greater flood.
ZONE A99	Area to be protected from 1% annual chance flood by a Federal flood protection system under construction; no Base Flood Elevations determined.
ZONE V	Coastal flood zone with velocity hazard (wave action); no Base Flood Elevations determined.
ZONE VE	Coastal flood zone with velocity hazard (wave action); Base Flood Elevations determined.

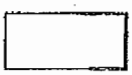


FLOODWAY AREAS IN ZONE AE

The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of encroachment so that the 1% annual chance flood can be carried without substantial increases in flood heights.

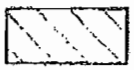
OTHER FLOOD AREAS

ZONE X	Areas of 0.2% annual chance flood; areas of 1% annual chance flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 1% annual chance flood.

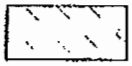


OTHER AREAS

ZONE X	Areas determined to be outside the 0.2% annual chance floodplain.
ZONE D	Areas in which flood hazards are undetermined, but possible.



COASTAL BARRIER RESOURCES SYSTEM (CBRS) AREAS



OTHERWISE PROTECTED AREAS (OPAs)

CBRS areas and OPAs are normally located within or adjacent to Special Flood Hazard Areas.

	1% annual chance floodplain boundary
	0.2% annual chance floodplain boundary
	Floodway boundary
	Zone D boundary
	CBRS and OPA boundary
	Boundary dividing Special Flood Hazard Areas of different Base Flood Elevations, flood depths or flood velocities.

Springfield, Illinois 62721

Re: Compliance with Requirements of Illinois Executive Order #2006-5
Regarding Construction Activities in Special Flood Hazard Areas

Dear Mr. Constantino:

The undersigned are authorized representatives of NIMED Corp., the owner of the site on which Centegra Hospital - Huntley is located.

We hereby attest that this site is not located on a flood plain, as identified by the most recent FEMA Flood Insurance Rate Map for this location, and that this location complies with the Flood Plain Rule and the requirements stated under Illinois Executive Order #2006-5, "Construction Activities in the Special Flood Hazard Areas."

This Attachment to this CON application includes documentation received from the Illinois State Water Survey in 2006. A review of the FEMA website on October 20, 2014, indicates that the FEMA Flood Insurance Map issued for the hospital site in November, 2006, and cited in the December 5, 2007, Special Flood Hazard Determination remains the most recent FEMA Flood Insurance Rate Map for this site.

Signed and dated as of October 20, 2014.

I.
Historic Resources Preservation Act Requirements

A copy of the request submitted to the Illinois Historic Preservation Agency on October 14, 2014 requesting a re-determination letter concerning the applicability of the Historic Preservation Act to Centegra Hospital – Huntley (which is currently under construction and previously received a determination letter) is found on page 2 of this Attachment.

The prior determination letter from the Illinois Historic Preservation Agency from November 3, 2010 is found on page 3 of this Attachment and documents that the campus of Centegra Hospital – Huntley is in compliance with the requirements of Section 4 of the Historic Resources Preservation Act (20ILCS 3420/1 et. Seq.).

Re: IHPA Log #008102010
Centegra Hospital - Huntley
Huntley, Illinois

Dear Ms. Haaker:

I am seeking a re-determination letter concerning the applicability of the Historic Preservation Act to a new hospital that is currently under construction and has previously received a determination letter.

Centegra Hospital - Huntley is planning to alter the plans for interior construction in its hospital building that is currently under construction and not yet licensed.

This project will consist only of interior construction within the hospital building that received approval as IHPA Log #008102010 on November 3, 2010.

I have attached a copy of the previous determination letter from the Illinois Historic Preservation Agency regarding this project.

I would appreciate it if you would send the determination letter to me as well as to Hadley Streng, the Director of Planning and Business Development at Centegra Health System, at the following address.

Ms. Hadley Streng
Director of Planning and Business Development
Centegra Health System
385 Millennium Drive
Crystal Lake, IL 60012

Thank you for your assistance in this matter. Please contact me if you have any questions.

Sincerely,

Andrea R. Rozran
Principal

Diversified Health Resources
65 E. Scott, Suite 9A
Chicago, IL 60610-5274

Dear Ms. Rozran:

The Illinois Historic Preservation Agency is required by the Illinois State Agency Historic Resources Preservation Act (20 ILCS 3420, as amended, 17 IAC 4180) to review all state funded, permitted or licensed undertakings for their effect on cultural resources. Pursuant to this, we have received information regarding the referenced project for our comment.

Our staff has reviewed the specifications under the state law and assessed the impact of the project as submitted by your office. We have determined, based on the available information, that no significant historic, architectural or archaeological resources are located within the proposed project area.

According to the information you have provided concerning your proposed project, apparently there is no federal involvement in your project. However, please note that the state law is less restrictive than federal cultural resource laws concerning archaeology. If your project will use federal loans or grants, need federal agency permits, use federal property, or involve assistance from a federal agency, then your project must be reviewed under the National Historic Preservation Act of 1966, as amended. Please notify us immediately if such is the case.

This clearance remains in effect for two (2) years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the IL Human Skeletal Remains Protection Act (20 ILCS 3440).

Please retain this letter in your files as evidence of compliance with the Illinois State Agency Historic Resources Preservation Act.

Sincerely,

Anne E. Haaker

ATTACHMENT-9

III.
Criterion 1110.230 - Background of Applicant

1. Centegra Health System is the sole corporate member of Centegra Hospital – Huntley, Centegra Hospital – McHenry and Centegra Hospital - Woodstock.

Centegra Health System currently operates 3 hospitals:

Northern Illinois Medical Center d/b/a Centegra Hospital - McHenry;

Memorial Medical Center - Woodstock d/b/a Centegra Hospital - Woodstock;

Memorial Medical Center – Woodstock d/b/a Centegra Specialty Hospital - Woodstock, South Street.

Centegra Health System is also the sole corporate member of Centegra Hospital – Huntley, which was granted a CON permit by the Health Facilities and Services Review Board on July 24, 2012 but is not yet operational.

Centegra Health System is also a member of Algonquin Road Ambulatory Surgery Center, L.L.C., which is an Illinois health care facility, as defined under the Illinois Health Facilities Planning Act (20 ILCS 3960/3).

The identification numbers of each of these health care facilities is shown below, along with their names and locations.

Name and Location of Facility	Identification Numbers
Centegra Hospital - McHenry McHenry	Illinois License ID #0003889 Joint Commission ID #7375
Centegra Hospital - Woodstock Woodstock	Illinois License ID #0004606 Joint Commission ID #7447
Centegra Specialty Hospital - Woodstock, South Street Woodstock	Illinois License ID #0001503 Joint Commission ID #7447
Algonquin Road Surgery Center, L.L.C. Lake in the Hills	Illinois License ID #7002579 Joint Commission ID #366641
Centegra Hospital – Huntley Huntley	n/a

Proof of the current licensure and accreditation of each of the facilities identified above except for Centegra Hospital - Huntley will be found beginning on Page 3 of this Attachment. The documents for Centegra Hospital – Huntley are not included because it is not yet operational.

2, 3. A letter from Centegra Health System certifying that its affiliated health care facilities have not had any adverse action taken against them during the past three years and authorizing the Illinois Health Facilities and Services Review Board and Illinois Department of Public Health to access any documents necessary to verify the information submitted in response to this subsection will be found on the final page of this Attachment.

4. This item is not applicable to this application because all of the applicants have not submitted applications for permit in the past year.

McHenry, Illinois 60050

Dear Mr. Eesley:

This letter confirms that your April 30, 2012 - May 04, 2012 unannounced full resurvey was conducted for the purposes of assessing compliance with the Medicare conditions for hospitals through The Joint Commission's deemed status survey process.

Based upon the submission of your evidence of standards compliance on July 30, 2012, the areas of deficiency listed below have been removed. The Joint Commission is granting your organization an accreditation decision of Accredited with an effective date of May 05, 2012. We congratulate you on your effective resolution of these deficiencies.

§482.22 Condition of Participation: Medical staff
§482.23 Condition of Participation: Nursing Services
§482.24 Condition of Participation: Medical Record Services
§482.25 Condition of Participation: Pharmaceutical Services
§482.26 Condition of Participation: Radiologic Services
§482.41 Condition of Participation: Physical Environment
§482.51 Condition of Participation: Surgical Services
§482.53 Condition of Participation: Nuclear Medicine Services

The Joint Commission is also recommending your organization for continued Medicare certification effective May 05, 2012. Please note that the Centers for Medicare and Medicaid Services (CMS) Regional Office (RO) makes the final determination regarding your Medicare participation and the effective date of participation in accordance with the regulations at 42 CFR 489.13. Your organization is encouraged to share a copy of this Medicare recommendation letter with your State Survey Agency.

This recommendation also applies to the following locations:

Accreditation Activity: Measure of Success
Accreditation Activity Completed: 08/03/2012

Dear Mrs. Callahan:

The Joint Commission would like to thank your organization for participating in the accreditation process. This process is designed to help your organization continuously provide safe, high-quality care, treatment, and services by identifying opportunities for improvement in your processes and helping you follow through on and implement these improvements. We encourage you to use the accreditation process as a continuous standards compliance and operational improvement tool.

The Joint Commission is granting your organization an accreditation decision of Accredited for all services surveyed under the applicable manual(s) noted below:

- Comprehensive Accreditation Manual for Ambulatory Health Care

This accreditation cycle is effective beginning February 11, 2012. The Joint Commission reserves the right to shorten or lengthen the duration of the cycle; however, the certificate and cycle are customarily valid for up to 36 months.

Please visit Quality Check® on The Joint Commission web site for updated information related to your accreditation decision.

We encourage you to share this accreditation decision with your organization's appropriate staff, leadership, and governing body. You may also want to inform the Centers for Medicare and Medicaid Services (CMS), state or regional regulatory services, and the public you serve of your organization's accreditation decision.

Please be assured that The Joint Commission will keep the report confidential, except as required by law. To ensure that The Joint Commission's information about your organization is always accurate and current, our policy requires that you inform us of any changes in the name or ownership of your organization or the health care services you provide.

Sincerely,

Mark Pelletier

III.
Criterion 1110.230 - Purpose of Project

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.

This project will improve the health care and result in increased well-being of the market area population by establishing the Cardiac Catheterization Category of Service at Centegra Hospital - Huntley.

Centegra Hospital - Huntley is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties. There are 11 facilities in Planning Area HSA-08 that provide Cardiac Catheterization Category of Service. As reported in the 2013 annual hospital questionnaires, all of the facilities in Planning Area HSA-08 are operating above the target utilization of 400 procedures per year as shown in the table below.

The table below shows a summary of facilities in Planning Area HSA-08 that provide cardiac catheterization services and the volume reported in the most recently published annual hospital questionnaires:

County	Hospital	City	2013 Cardiac Cath Procedures
Lake	Advocate Good Shepherd Hospital	Barrington	1,124
Lake	Advocate Condell Medical Center	Libertyville	2,063
Kane	Advocate Sherman Hospital	Elgin	2,308
McHenry	Centegra Hospital - McHenry	McHenry	1,855
Kane	Delnor Community Hospital	Geneva	441
Lake	Highland Park Hospital	Highland Park	1,226
Lake	Northwestern Lake Forest Hospital	Lake Forest	514
Kane	Presence Mercy Medical Center	Aurora	1,523
Kane	Presence Saint Joseph Hospital	Elgin	482
Kane	Rush-Copley Medical Center	Aurora	1,648
Lake	Vista Medical Center East	Waukegan	1,125

Centegra Hospital – McHenry is currently the only facility in McHenry County providing the Cardiac Catheterization Category of Service. This project will alleviate high utilization at Centegra Hospital-McHenry and the applicants are applying under the Multi-Institutional Variance criterion. Centegra Hospital-McHenry currently has sufficient volume so that both its existing service and the proposed service at Centegra Hospital-Huntley will operate above the target utilization rate. In addition, the applicants are submitting referral letters from Cardiologists currently admitting to Centegra Hospital-McHenry documenting the volume of procedures for patients who currently have undergone cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

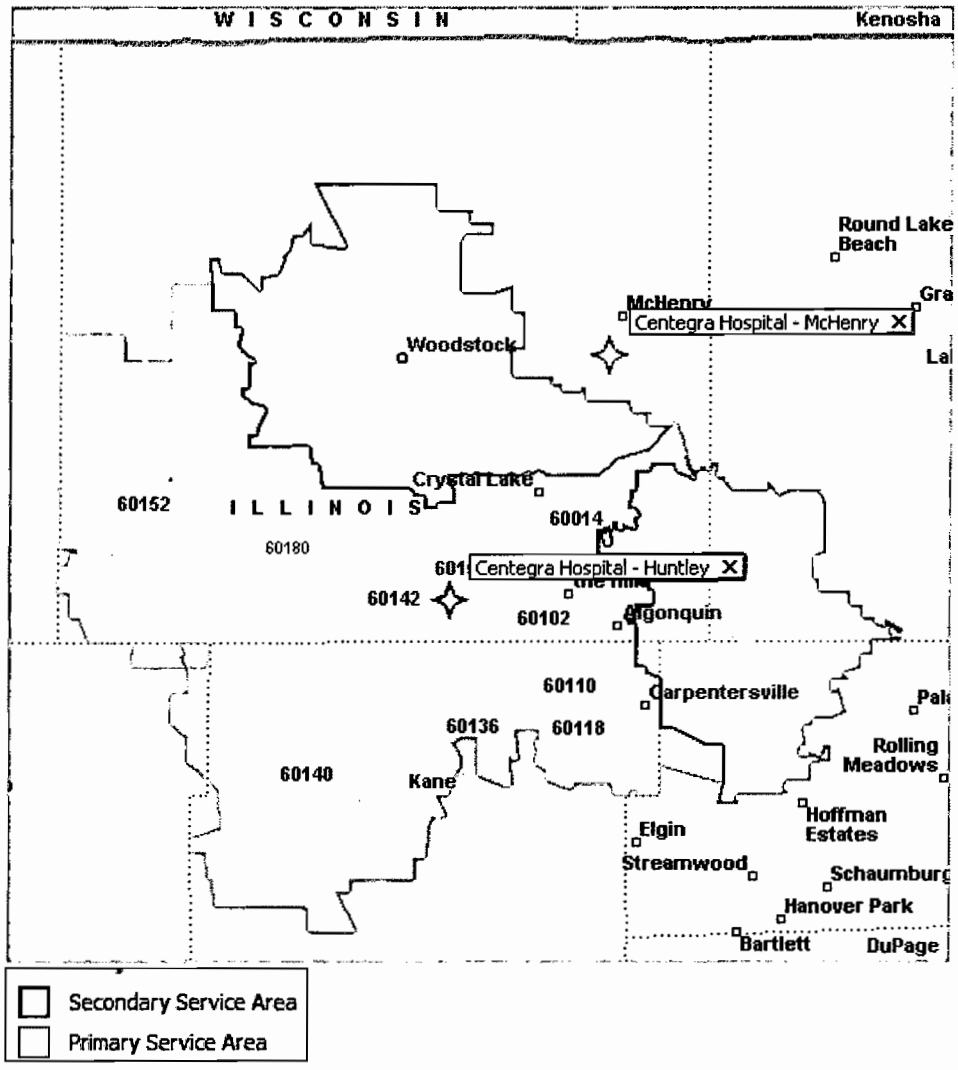
Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service During the most recent 12 month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization of Cardiac Catheterization at Centegra Hospital – McHenry, and to better serve the patients in the

Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital - Huntley utilizing the multi-institutional variance criterion.

2. Define the planning area or market area, or other, per the applicant's definition.

The market area for this project is the same as the proposed service area for Centegra Hospital – Huntley. The market area consists of the following zip codes, all of which are located primarily in Planning Area HSA-08, and shown on the following map.

Primary Service Area		Secondary Service Area	
60142	Huntley	60098	Woodstock
60156	Lake in the Hills	60013	Cary
60014	Crystal Lake	60012	Crystal Lake
60102	Algonquin	60039	Crystal Lake
60152	Marengo	60010	Barrington
60140	Hampshire	60021	Fox River Grove
60110	Carpentersville		
60180	Union		
60118	Dundee		
60136	Gilberts		



The applicant received referral letters from area Cardiologists documenting the number of cardiac catheterizations they anticipate performing at Centegra Hospital – Huntley. The referral letters can be found in Appendix 1. The procedures are documented patients that currently reside in Centegra Hospital – Huntley's service area as can be seen by the patient origin for the 236 procedures on page 6 of this attachment.

3. **Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]**

This project proposes to address the following health care issues.

- This project proposes to establish one Cardiac Catheterization lab at Centegra Hospital – Huntley.
- This project proposes to address the high utilization at Centegra Hospital – McHenry.
- This project proposes to increase the accessibility cardiac catheterization services to patients because Centegra Hospital – McHenry is the only facility providing Cardiac Catheterization Category of Service in McHenry County. Cardiac catheterization is available at four facilities in Kane County and six facilities in Lake County, the other counties making up Planning Area HSA-08.
- This project proposes to address the cardiac catheterization needs of the residents of the Centegra Hospital - Huntley service area that are identified by the federal government (Health Resources and Services Administration of the U.S. Department of Health and Human Services) as Medically Underserved Populations.

  A discussion of those census tracts is found in Item 5 below. Identification of the Medically Underserved Populations is found on Pages 7 - 9 of this attachment.

4. **Cite the sources of the information provided as documentation.**

The sources of information provided as documentation are the following:

a. Illinois Department of Public Health, 2013 Hospital Profiles;

b. Illinois Department of Public Health, "Inventory of Health Care Facilities and Services and Needs Determinations," August 14, 2013

c. Illinois Department of Public Health, " Addendum to Inventory of Health Care Facilities," September 24, 2014;

d. Hospital records;

e. Centegra Health System's internal financial reporting system (EPSI);

f. Population data from ESRI;

g. Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS), HPSA & MUA/P Shortage Areas and Populations by Address, http:/datawarehouse.hrsa.gov/GeoAdvisor/ ShortageDesignationAdvisor.aspx;

h. Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS), Medically Underserved Areas and Populations by State and County, http://muafind.hrsa.gov/ index.aspx for Kane, Lake and McHenry Counties;

i. Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS), Health Professional Shortage Areas by State and County, http://hpsafind.hrsa.gov/ HPSASearch.aspx for Kane, Lake and McHenry Counties;

j. National Fire Protection Association, NFPA 101: Life Safety Code, 2012 Edition

k. The Facilities Guidelines Institute with assistance from the U.S. Department of Health and Human Services, Guidelines for Design and Construction of Health Care Facilities, 2010 Edition. 2010: ASHE (American Society for Healthcare Engineering), Sections 2.1-2.4, 2.2-2.14, 2.5-2.2.5 through 2.5-2.2.8, 2.5-7.2, 2.5-8.

5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.

This project will address and improve the health care and well-being of residents of HSA-08, specifically in the service area planned for Centegra Hospital – Huntley.

This project will impact those areas within planning area HSA-08 identified by the federal government (Health Resources and Services Administration of the U.S. Department of Health and Human Services) as having Medically Underserved Populations.

Within the market area for this proposed project, there are four census tracts that have been designated as having a federally-designated Medically Underserved Population, a designation that is made to document unusual local conditions and barriers to accessing personal health services.

Central Carpentersville	CT 8503.01
Woodstock	CT 8702.00
Woodstock	CT 8709.02
Woodstock	CT 8715.00

The identification of these areas is found on Pages 7 - 9 of this Attachment.

This project will have a positive impact on those patients residing in these areas who require cardiac catheterization services that will be established in Centegra Hospital - Huntley.

6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals as appropriate.

Centegra Health System's goal in establishing the Cardiac Catheterization Category of Service at Centegra Hospital - Huntley is to alleviate high utilization at Centegra Hospital-McHenry and improve access to Cardiac Catheterization services to the residents of HSA-08 because all hospitals are above the utilization standard.

For projects involving modernization, describe the conditions being upgraded if any.
Centegra Hospital – Huntley is currently under construction. The proposed area to be modernized consists of space formerly designated for storage, as well as dedicating a PACU and recovery cubicles for recovery.

ATTACHMENT-12, PAGE 9

III.
Criterion 1110.230 - Alternatives

1. The following alternatives to the proposed project were considered and rejected.

   a. Expand the Cardiac Catheterization Unit at Centegra Hospital–McHenry by adding one cardiac catheterization lab to the existing unit in the existing space.

   b. Expand the Cardiac Catheterization Unit at Centegra Hospital–McHenry by creating a newly constructed unit consisting of four cardiac catheterization labs.

2. The alternatives were rejected for the following reasons.

   a. Expand the Cardiac Catheterization Unit at Centegra Hospital–McHenry by adding one cardiac catheterization lab to the existing unit in the existing space.

      This alternative was determined to be infeasible because Centegra Hospital - McHenry does not have available space within the existing Cardiac Catheterization Unit to accommodate an additional lab.

      Capital Costs for this alternative, if it had been determined to be feasible: $3,203066 and would include the same costs as the proposed project in addition to $50,000 incremental costs needed to gut the existing space.

   b. Expand the Cardiac Catheterization Unit at Centegra Hospital–McHenry by creating a newly constructed unit consisting of four cardiac catheterization labs.

      Capital Costs for implementing this alternative at Centegra Hospital - McHenry: $8,845,788

      There would be incremental cost of nearly $5.7 million associated with selecting this alternative because it would require a new addition to be constructed at Centegra Hospital–McHenry. Construction of a new addition would result in additional costs for new construction of an addition as well as additional costs associated with the new construction that are not required for the proposed project, including demolition and clearing of the area where the new addition would be constructed, site survey and soil investigation, and preparation of the site for the new construction.

      The three cardiac catheterization labs at Centegra Hospital–McHenry are located on the ground floor in the interior core of the building adjacent to the Surgery Department and Radiology Department and are surrounded on all sides by other clinical services that cannot easily, or cost effectively, be relocated.

      The existing catheterization labs have the surgical suite directly to the east and south, an interior corridor and radiology suite are located to the west, and the hospital's heart center is to the north and underground at this portion of the building.

      Having the cardiac catheterization lab located in space not adjacent to the Heart Center would also result in operational inefficiencies.

3. This item is not applicable to this project.

IV.
Size of Project

1. The proposed Cardiac Catheterization unit at Centegra Hospital - Huntley will utilize space formerly designated for storage, as well as dedicating a PACU and recovery cubicles for recovery.

   The space will include one cardiac catheterization lab, dedicated PACU and reconvery cubicles for recovery.

2. Appendix B to Part 1110 lists the standard for Cardiac Catheterization to be 1,800 Square Feet/Unit or Key Room. The proposed unit consisting of 1,768 dgsf is within the state standard.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	**PROPOSED BGSF/DGSF**	**STATE STANDARD**	**DIFFERENCE**	**MET STANDARD?**
Cardiac Catheterization	1,768 dgsf	1,800 dgsf	Within standard	Yes

IV.
Project Services Utilization

This project includes the Cardiac Catheterization Category of Service. The state guideline for utilization as stated in 77 Ill Admin Code 1100.620(b) is that there should be a minimum of 200 cardiac catheterization procedures performed annually within two years after initiation.

Projected utilization for the first two fiscal years of operation for Cardiac Catheterization is found below:

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1	Cardiac Cath	0	236	n/a	n/a
YEAR 2	Cardiac Cath	0	237	200 procedures per year	Yes

The following calculations show the projected utilization for year 1 and year 2 of operation.

Year	Procedures	Support
Year 1 (FY18)	236	The referral letters shown in Appendix 1document 236 cardiac catheterization procedures from Centegra Hospital – McHenry for patients residing in Centegra Hospital – Huntley's proposed service area.
Year 2 (FY19)	237	.4% growth The projected five year population growth rate for the service area is 1.9%, or .4% per year (source: ESRI). Utilizing the population growth rate, 237 procedures are expected for FY19.

]

1. Criterion 1110.1330(a), Peer Review

Read the criterion and submit a detailed explanation of your peer review program.

The cardiac catheterization service at Centegra Hospital Huntley will be affiliated with the existing cardiac catheterization service at the co-applicant Centegra Hospital – McHenry which has operated that service since 1992. Centegra Hospital-Huntley will adopt a peer review program similar to that currently in effect at Centegra Hospital-McHenry and includes the following details.

The peer review committee chair shall be the cardiac catheterization medical director, who shall be board certified in interventional cardiology, actively practicing at Centegra Hospital - McHenry and Centegra Hospital – Huntley and appointed at the sole discretion of the administration. Members of this committee will all be actively practicing interventional cardiologist at Centegra Hospital - Huntley.

The committee shall establish and periodically update all protocols for cardiac catheterization laboratory procedures, with regular revisions as needed. The protocols include procedures for the committee's evaluation of quality studies and related morbidity and mortality of patients as well as the technical aspects of providing the cardiac catheterization service.

The committee shall review cases that are selected, at the committee's discretion, for quality outcomes and review overall catheterization lab quality indicators on a regular basis.

The committee chair shall make regular reports to the general hospital based Quality Assurance Committee/Medical Executive Committee, as needed.

Data shall be collected and submitted to the relevant American College of Cardiology registries to monitor outcomes and ensure compliance with current guidelines. These reports shall be reviewed regularly by the quality committee.

The committee shall meet on a regular basis, as determined by its chair.

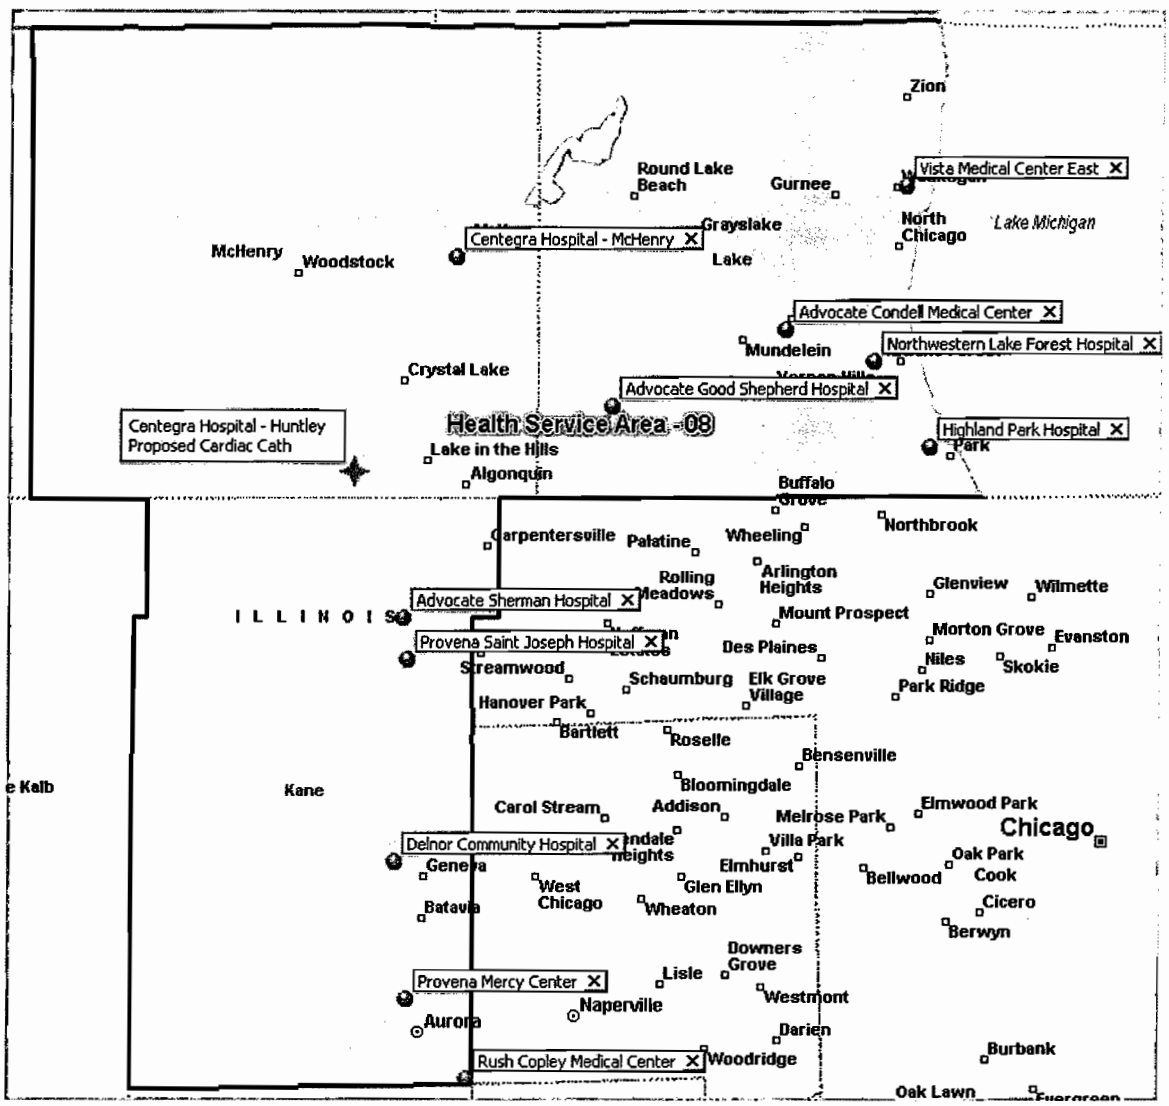
2. Criterion 1110.1330(b), Establishment or Expansion of Cardiac Catheterization Service

Read the criterion and, if applicable, submit the following information:

a. A map (8 1/2" x 11") showing the location of the other hospitals providing cardiac catheterization service within the planning area.

Centegra Hospital – Huntley is in planning area HSA-08 which includes McHenry, Lake and Kane Counties. There are currently 11 facilities that provide cardiac catheterization services within planning area HSA-08. All of them met the standards outlined in 77 Ill. Adm. Code 1100.620 during CY2013, as indicated on the recently-issued 2013 Hospital Profiles.

A map highlighting HSA-08 and showing the locations of the existing hospitals and the applicant facility can be found below.



b. The number of cardiac catheterizations performed for the last 12 months at each of the hospitals shown on the map.

The table below shows the facilities in HSA-08 that provide cardiac catheterization services and the volume reported in the most recently published annual hospital questionnaires.

County	Hospital	City	2013 Cardiac Cath Procedures
Lake	Advocate Good Shepherd Hospital	Barrington	1,124
Lake	Advocate Condell Medical Center	Libertyville	2,063
Kane	Advocate Sherman Hospital	Elgin	2,308
McHenry	Centegra Hospital - McHenry	McHenry	1,855
Kane	Delnor Community Hospital	Geneva	441
Lake	Highland Park Hospital	Highland Park	1,226
Lake	Northwestern Lake Forest Hospital	Lake Forest	514
Kane	Presence Mercy Medical Center	Aurora	1,523
Kane	Presence Saint Joseph Hospital	Elgin	482
Kane	Rush-Copley Medical Center	Aurora	1,648
Lake	Vista Medical Center East	Waukegan	1,125

All of the facilities in HSA-08 are above the target utilization of 400 procedures per year.

c. Provide the number of patients transferred directly from the applicant's hospital to another facility for cardiac catheterization services in each of the last three years.

Because the proposed service is to be located in a facility that is not yet operational, it is not possible to provide the volume of patients that were transferred from the facility.

The purpose of the project is to alleviate high utilization at Centegra Hospital-McHenry and the applicants are applying under the Multi-Institutional Variance criterion. Centegra Hospital-McHenry currently has sufficient volume so that both its existing service and the proposed service at Centegra Hospital-Huntley will operate above the target utilization rate. In addition, the applicants are submitting referral letters from Cardiologists currently admitting to Centegra Hospital-McHenry documenting the volume of procedures for patients who currently have undergone cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12 month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced

more than 750 procedures per lab in each of its three labs. Due to the high utilization of Cardiac Catheterization at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital - Huntley utilizing the multi-institutional variance criterion.

The applicant received referral letters from area Cardiologists documenting the number of cardiac catheterizations they anticipate performing at Centegra Hospital – Huntley. The procedures are documented patients that currently reside in Centegra Hospital – Huntley's service area.

The physicians project a referral volume of 236 procedures in the first full fiscal year of operation which exceeds the utilization standards of a minimum of 200 cardiac catheterization procedures performed annually within two years after initiation as stated in 77 Ill. Adm. Code 1100.620(b). Referral letters are included as Appendix 1.

3. Criterion 1110.1330(c), Unnecessary Duplication of Services

Read the criterion and, if applicable, submit the following information.

The project will not reduce the volume of any existing facility below 200 catheterizations. All of the projected patient volume for the proposed service are based on patients currently treated at the co-applicant Centegra Hospital – McHenry, which has sufficient existing volume to allow both sites to operate at target utilization. Because all of the projected patient volume is based on Centegra Hospital – McHenry's existing volume, no other existing service will be impacted by the proposed project.

The applicants have contacted all facilities currently providing cardiac catheterization services within the planning area to determine impact of the project as documented below.

a. Copies of the letter sent to all facilities within 90 minutes travel time which currently provide cardiac catheterization. This letter must contain a description of the proposed project and a request that the other facility quantify the impact of the proposal on its program.

Centegra Hospital - Huntley sent requests to the 63 facilities that provide the Cardiac Catheterization Category of Service and that are located within 90 minutes travel time of Centegra Hospital – Huntley, asking each facility to assess the impact this proposed project would have on their Cardiac Catheterization program. These facilities were determined based on travel time calculated using www.mapquest.com and adjusted by multiplying the travel time by 1.15, in accordance with 77 Ill. Adm. Code 1100.510(d)(2) and are listed in the table below.

Hospital	City	Planning Area	Adjusted Travel Time
Adventist Bolingbrook Hospital	Bolingbrook	HSA-09	69 minutes

The MapQuest data are found in Appendix 2 of this CON application.

A copy of the written requests for impact statements that were sent to these facilities is found in Appendix 3, together with documentation that the request was received at the facility.

b. Copies of the responses received from the facilities to which the letter was sent.

None of the hospitals within the 90 minute travel time have indicated that establishing cardiac catheterization services at Centegra Hospital –Huntley will adversely impact their program.

Centegra Hospital – McHenry, a co-applicant for this permit, has indicated its support for this project by entering into a fully executed affiliation agreement with Centegra Hospital – Huntley to participate in the Multi-Institutional Variance for the Cardiac Catheterization Category of Service. A copy of the affiliation agreement is appended to this Attachment.

Any responses that are received by the applicant after the submission of this CON application will be forwarded to the Illinois Health Facilities and Services Review Board to be included in the project file.

The cardiac catheterization volume at all of the facilities in HSA-08 exceeds the target utilization of 400 procedures per year that is required to establish an additional cardiac catheterization service, as specified in 77 Ill. Adm. Code 1100.620(c).

There are only four facilities within 90 minutes travel time that are below target utilization, all of which are in other planning areas and located more than 60 minutes adjusted travel time from Centegra Hospital - Huntley.

Facility and Town Planning Area	Adjusted Travel Time*
Adventist Bolingbrook Hospital, Bolingbrook HSA-09	69 minutes
Holy Cross Hospital, Chicago HSA-06	89 minutes
Rush Oak Park Hospital, Oak Park HSA-07	63 minutes
Thorek Memorial Hospital, Chicago HSA-06	69 minutes

*Travel Time was calculated using www.mapquest.com and adjusted by multiplying the travel time by 1.15, in accordance with 77 Ill. Adm. Code 1100.510(d)(2).

The Map Quest travel time information will be found in Appendix 2 of this CON application.

4. Criterion 1110.1330(d), Modernization of Existing Cardiac Catheterization Laboratories

Read the criterion and, if applicable, submit the number of cardiac catheterization procedures performed for the last 12 months.

This criterion does not apply because this application is to establish the Cardiac Catheterization Category of Service.

5. Criterion 1110.1330(e), Support Services

Read the criterion and indicate on a service by service basis which of the listed services are available on a 24 hour basis and explain how any services not available on a 24 hour basis will be available when needed.

All of the support services identified in section 1110.1330(e) will be available at Centegra Hospital – Huntley. Following is the detail on the availability of each.

Nuclear medicine laboratory:
Available 11 hours per day Monday – Friday and available on an as-needed basis at other times.

Echocardiography service:
Available 14 hours daily and available on an as-needed basis at other times.

Electrocardiography laboratory and services, including stress testing and continuous cardiogram monitoring:
Available 8 hours daily and available on an as-needed basis at other times.

Pulmonary Function unit: Immediately available on a 24 hour basis

Blood bank: Immediately available on a 24 hour basis

Hematology laboratory - coagulation laboratory: Immediately available on a 24 hour basis

Microbiology laboratory: Immediately available on a 24 hour basis

Blood Gas laboratory: Immediately available on a 24 hour basis

Clinical pathology laboratory with facilities for blood chemistry: Immediately available on a 24 hour basis

6. Criterion 1110.1330(f), Laboratory Location

Read the criterion and, if applicable, submit line drawings showing the location of the proposed laboratories. If the laboratories are not in close proximity explain why.

This criterion is not applicable because the proposed project is to establish only one cardiac catheterization laboratory.

7. Criterion 1110.1330(g), Staffing

Read the criterion and submit a list of names and qualifications of those who will fill the positions detailed in this criterion. Also provide staffing schedules to show the coverage required by this criterion.

Centegra Hospital – McHenry currently meets the staffing levels required for the operation of a cardiac catheterization service. The proposed service at Centegra Hospital – Huntley will be similarly staffed.

The staffing includes all of the positions identified in the Criterion with the exception of darkroom technicians, a position that is no longer needed due to advancements in technology. The equipment is digital and does not utilize film to create an image. Digital imaging technicians are currently on staff at Centegra Hospital – McHenry, and will be on staff at Centegra Hospital – Huntley.

Centegra Hospital – Huntley is scheduled to open in 2016 and the staffing plan is in the beginning stages of development. Therefore, all of the actual staff for the cardiac catheterization program have not yet been hired.

Copies of the job descriptions currently in place at Centegra Health System for the positions needed to establish cardiac catheterization services can be found on pages 19 - 54 of this attachment. These will also be utilized for positions at Centegra Hospital – Huntley. The table below shows which existing positions/job descriptions will meet the staffing requirements of the criterion.

1) Lab director board-certified in internal medicine, pediatrics or radiology with subspecialty training in cardiology or cardiovascular radiology.	Director of Cardiology, MD – CV attached. Fellowship trained and Board Certified in Cardiology, and with additional subspecialty training and Board Certification in interventional cardiology.
2) A physician with training in cardiology and/or radiology present during examination with extra physician backup personnel available.	CVs for three Cardiologists are attached on pages 55 – 61
3) Nurse specially trained in critical care of cardiac patients, knowledge of cardiovascular medication, and understanding of catheterization equipment.	Manager, Cardiac Services Coordinator, Cardiac Cath RN IV RN III RN II
4) Radiologic technologist highly skilled in conventional radiographic techniques and angiographic principles, knowledgeable in every aspect of catheterization instrumentation, and with thorough knowledge of the anatomy and physiology of the cardiovascular system.	Lead Angiographer Angiographer II

5) Cardiopulmonary technician for patient observation, handling blood samples and performing blood gas evaluation calculations.	RN IV RN III RN II Lead Angiographer Angiographer II
6) Monitoring and recording technician for monitoring physiologic data and alerting physician to any changes.	RN IV RN III RN II Lead Angiographer Angiographer II
7) Electronic radiologic repair technician to perform systematic tests and routine maintenance; must be immediately available in the event of equipment failure during a procedure.	A service agreement will be in place for systematic tests and routine maintenance; and a technician will be immediately available in the event of equipment failure during a procedure.
8) Darkroom technician well trained in photographic processing and in the operation of automatic processors used for both sheet and cine film.	Not Applicable
Other Support Staff	Cardiology Assistant Health Unit Coordinator Nurse Technician

Cardiologists at Centegra Hospital - McHenry have submitted referral letters stating that they plan to treat patients at Centegra Hospital – Huntley. CVs can be found on pages 55-61 of this attachment.

It is planned that the current Director of Cardiologyy, MD, Director of Surgical Services and Cardiology and the Manager of Cardiac and Robotic Services at Centegra Hospital – McHenry will also oversee the program at Centegra Hospital – Huntley. CVs for these professionals can be found on pages 62 - 65 of this attachment.

8. Criterion 1110.1330(h), Continuity of Care

Read the criterion and submit a copy of the fully executed written referral agreement(s).

The applicant has a transfer agreement with Centegra Hospital – McHenry to provide Open Heart Surgery backup to Centegra Hospital – Huntley. A copy of the agreement is found on pages 66 - 70 of this attachment.

9. Criterion 1110.1330(i), Multi-Institutional Variance

Read the criterion and, if applicable, submit the following information:

a. A copy of a fully executed affiliation agreement between the two facilities involved.

The co-applicants Centegra Hospital – McHenry and Centegra Hospital – Huntley are already affiliated as they are both within the Centegra Health System. A copy of Centegra Health System's organization chart is attached as page 71 to this Attachment. Centegra Health System is the sole corporate member of both Centegra Hospital – McHenry and Centegra Hospital – Huntley.

It is anticipated that the medical staff members on staff at Centegra Hospital McHenry who provide cardiac catheterization services will also be on the Medical Staff of Centegra Hospital Huntley and will provide the same services at that facility. In addition, the Medical Staffs from existing Centegra facilities have already begun discussions concerning the unification of the Medical Staffs pursuant to recently released CMS regulations.

b. Names and positions of the shared staff at the two facilities.

Cardiologists at Centegra Hospital - McHenry have submitted referral letters stating that they plan to treat patients at Centegra Hospital – Huntley. CVs can be found on pages 55 - 61 of this attachment.

It is planned that the current Director of Cardiologyy, MD, Director of Surgical Services and Cardiology and the Manager of Cardiac and Robotic Services at Centegra Hospital – McHenry will also oversee the program at Centegra Hospital – Huntley. CVs can be found on pages 62 - 65 of this attachment.

c. The volume of open heart surgeries performed for the latest 12-month period at the existing operating program.

During the most recent 12 months, October 2013 – September 2014, 163 Open Heart Surgeries were performed at Centegra Hospital – McHenry.

d. A cost comparison between the proposed project and expansion at the existing operating program.

Expansion at the existing program is not feasible. The three cardiac catheterization labs at Centegra Hospital – McHenry are located on the ground

floor in the interior core of the building adjacent to the Surgery Department and Radiology Department and are surrounded on all sides by other clinical services that cannot easily, or cost effectively, be relocated.

As shown in the attached floor plan on page 72 of this attachment the existing catheterization labs have the surgical suite directly to the east and south, an interior corridor and radiology suite are located to the west, and the hospital's heart center is to the north and underground at this portion of the building.

The expansion of the Centegra Hospital – McHenry's Cardiac Catheterization/Interventional Radiology Suite would require the construction of an addition to the hospital and the relocation of the existing catheterization laboratories in order to preserve the desired adjacencies. This expansion and relocation would cost $8,845,788 as discussed in Attachment 13.

e. The number of cardiac catheterization procedures performed in the last 12 months at the operating program.

During the most recent 12 months, October 2013 – September 2014, 1,931 cardiac catheterization procedures have been performed at Centegra Hospital – McHenry. An additional 439 interventional radiology procedures have been performed in the cardiac catheterization laboratories, resulting in a total of 2,424 procedures performed in the 3 cardiac catheterization laboratories.

f. The number of catheterization laboratories at the operating program.

Centegra Hospital – McHenry has three catheterization laboratories, two of which are multi-purpose labs and utilized for interventional radiology procedures as well as for cardiac catheterization procedures.

g. The projected cardiac catheterization volume at the proposed facility annually for the next 2 years.

The following volume is projected.

Year	Procedures
FY17 (partial year)	177
FY18 (first complete year of operation)	236
FY19 (second complete year of operation	237

h. The basis for the above projection

As documented in the referral letters located in Appendix 1, Centegra Hospital – Huntley anticipates 236 cardiac catheterization procedures to be performed in the first full fiscal year of operation, FY18. The projected five year population growth rate for the service area is 1.9%, or .4% per year. Utilizing the population growth rate, 237 procedures are expected for FY19.

Centegra Health System

POSITION DESCRIPTION

TITLE: Director of Cardiology, MD

DEPARTMENT: Cardiovascular Service Line

DATE: March 2011 FLSA STATUS: Exempt

NATURE AND SCOPE OF POSITION

The Director is responsible for the development of the strategic business plans and tactical plans to grow and develop the service line and maximize the effectiveness of the Cardiology Practices and Cardiac Catherization Lab at Centegra Health System. The Director facilitates the integration and teamwork to ensure the highest level of care for patients. This position is accountable for ensuring program evaluation, marketing and business development for the employed Cardiology practice as well as management of the Cardiac Catherization Lab in a manner that will insure the growth and development of the services and achievement of quality and service objectives tied to the Cardiology service line. The Director is responsible for ensuring Cardiology Services are performing in conjunction with the mission, vision and values of Centegra Health System.

PRINCIPAL RESPONSIBILITIES

1. Maintains an active clinical practice. The administration and practice time will be determined as found appropriate.

2. Principal responsibilities encompass operational, financial, human resource, quality management, planning, and marketing functions to Cardiology.

3. Assesses the growth strategies, coordinates business plans, and implements best practice processes to achieve desired outcomes.

4. Creates a structure and environment for medical leadership within the department allowing for collaboration, communication, and successful outcomes.

5. Leads the Physicians and Catherization Lab in proactive communication; developing procedures and controls to ensure an effective information flow that anticipates and addresses the needs, complaints, and problems while representing Centegra positively to our customers, stakeholders and the public.

6. Oversees the Medical Directorships for Cardiology.

7. Works collaboratively in a matrix organization with the VP of Centegra Primary Care (Physician Leader).

8. Facilitates the process of recruiting, hiring, retaining, and developing talented physicians.

9. Acts as a mentor and advocate for Physicians. Creates appropriate channels of communication with a focus of relationship building. Strives to achieve and maintain high levels of Physician satisfaction.

10. Identifies and responds to business and operational needs of the Cardiologist.

11. Educates appropriate Health System constituencies and acts as a resource in regard to Cardiology strategies, operations and program development.

12. Develops, implements, and monitors performance against annual goals and performance benchmarks for the practice, ensuring innovative, profitable, high-quality health care delivery.

13. As a member of leadership, participates in annual strategic planning process and reviews progress toward meeting annual strategic initiatives.

14. Collaborates with others to ensure seamless customer service to the patients we serve.

15. Responsible for defining competencies and job expectations for physicians, while maintaining the proper level of highly competent staff.

16. Collaborates with the Vice President of Service Line Operations to provide leadership to department leaders in development and implementation of operating policies and procedures for Centegra Health System, which concurs with Centegra's values.

17. Monitors budgets to insure the delivery of services in the most cost effective manner.

18. Leads within a matrixed reporting structure collaborating with administrative and department leadership.

19. Integrates the system's ongoing quality improvement functions. Reports operational issues to the Vice President of Service Line Operations, Executive Leaders and Medical Staff, as appropriate, with proposed recommendations.

20. Develops, implements and administers programs in accordance with the most recent standards of the Joint Commission, all Federal, State and regulatory agency requirements. Provides system-wide education on appropriate quality and safety standards.

21. Serves as member of system and medical staff committees pertinent to area of responsibilities. Provides support to physicians regarding operation issues.

22. Develops an organizational climate that encourages and enhances growth and development of all Associates in areas of responsibility.

23. Is knowledgeable about age specific competencies for this position and follows policies, protocols and procedures for each age category.

24. Performs other related duties as assigned.

Minimum Knowledge, Skills and Abilities

MD licensed to practice in the State of Illinois required
Board Certified in Cardiovascular Disease
Board Certified in Interventional Cardiology
Minimum of three to five years Interventional Cardiology experience required
Minimum of three to five years related experience required
Excellent verbal and written communication skills
Ability to work with various levels with the organization (physicians, nurse, medical assistants, clinical staff, administration, and support personnel)
Ability to work independently
Proficiency with computers
Demonstrated analytical ability is necessary
Exceptional interpersonal skills are required
Knowledge of managed care products, provider relations, member service, claims and utilization review

CENTEGRA HEALTH SYSTEM

JOB DESCRIPTION

TITLE: **Director, Surgical Services and Cardiology-McHenry**

DEPARTMENT: **Centegra Health System**

DATE: **May, 1996**
September, 2006
June, 2012
July, 2013
June, 2014 **FLSA STATUS: Exempt**

NATURE AND SCOPE OF POSITION

Under the supervision of the McHenry Site Administrator, the Director of Surgical Services is responsible for planning and directing the operations including Ambulatory Surgery, Ambulatory Treatment Services, Operating Room, Sterile Processing, Same Day Surgery, Scheduling, PACU, and Cardiac Cath Lab at Centegra Hospital McHenry as well as Heart Failure, Cardiac Pulmonary Rehab, and Cardiac Diagnostics for the Health System. In cooperation with the administrative and medical leadership team, provides strategic and operational leadership for all Surgical Services Departments within Centegra Hospital McHenry to include: personnel, budget and equipment management, P.I. activities, policies and procedures, strategic planning and strategic marketing plans. Directing preparation of annual capital, operational and FTE budgets. Responsible to ensure effective monitoring and judicious utilization of resources. Provides leadership and support to department leadership team. Promotes communication across all departments and Centegra Health System sites.

The Director of Surgical Services and Cardiology at McHenry Hospital assumes the role as a leader in planning, directs and manages the departments and staff to assure quality service on a twenty-four (24) hour basis. Responsible for meeting Joint Commission standards, complies with all state and federal regulations, complies with Centegra Health System policy and procedures. Manages supplies and equipment, promotes teamwork with physicians and all health care providers. Promotes internal and external customer satisfaction. Ensures high quality, responsive service level performance and implements various cost savings components to operations. Standardizing processes where appropriate. Ensures coordinated and harmonious working relationships within the structure among Medical Group leadership, Medical Directors, with other hospital departments, medical staffs, and the public.

PRINCIPAL RESPONSIBILITIES

1. Conducts thorough analyses and develop strategies, methodologies, and effective relationships to develop, grow, and integrate service line throughout Centegra Health System.
2. Leads the service line in proactive communication; developing procedures and controls to ensure an effective information flow that anticipates and addresses the needs, complaints, and problems while representing Centegra positively to our customers, stakeholders and the public.
3. In collaboration with the Medical Directors and Physicians, this position develops and enhances objectives for growth of the Departments based upon the 5 Stars of Centegra Health System.
4. Possesses strong analytical reasoning, decisiveness, integrity, and vision;
5. Demonstrated ability in healthcare management with experience in personnel management; management and integration of multiple entities; budget preparation and planning for multiple facilities; development and monitoring of staff productivity systems; quality improvement and establishment of quality standards and monitors;
6. Works collaboratively with physicians to achieve strategic outcomes;
7. Demonstrates success in major project coordination, implementation of successful cost containment initiatives, and contract negotiation is required;
8. Selects, purchases, plans and implements surgical services equipment;
9. Demonstrates experience in the use of word processing, graphics and spreadsheet software;
10. Actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every Associate with in CHS;
11. Collaborates with ancillary departments for coordinated patient/operation efforts. Implements, evaluates effectiveness of changes and monitors for ongoing improvements. Adjusts operations in response to feedback from other departments.
12. Oversees the quality assurance/improvement process for medical ancillary departments and recommends indicators to evaluate and improve services provided;
13. Directs and monitors the Human Resources of the Surgical Services Departments listed above. Projects future staffing requirements. Oversees the selection and training processes for the development of an effective and efficient staff. Evaluates, counsels, and disciplines departmental staff in relation to HR policy. Analyzes information on turnover, performance appraisal learning needs, and competency. Facilitates a climate conducive to learning;
14. Develops an effective leadership team; successful mentor and coach who develops a proactive, effective management team who is responsible and accountable within the defined score of their authority.
15. Demonstrates the knowledge necessary to provide the care appropriate to the age of the patients served in the Surgical Services Departments. Knowledgeable of the principles of growth and development over the life span;
16. This position integrates the Centegra Health System values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers;

17. This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis;
18. This position actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every associate within CHS;
19. Performs other duties as assigned.

MINIMUM EDUCATION/CERTIFICATION/REGISTRATION

CPR Certification - Required

BSN, BS or BA - Required

MBA, MHA, and/or MSN - Preferred

5 Years Position-Related Experience (Management) - Minimum

Physical Ability to Perform Functional Requirements as Detailed

Demonstrated ability to work in a professional, multi-disciplinary team as a group leader, facilitator, or participant.

Sound business judgment with a strong understanding of healthcare services, operations, finance, and patient satisfaction strategies.

Reputation as a strategic, systems thinker, and role model.

Documented self-starter and team builder, recognizing and supporting Associates in achieving organizational Mission, goals and objectives.

Experience and documented abilities in the areas of cost saving, expenditure controls, revenue enhancement and efficiencies in healthcare operations.

Excellent oral and written communication skills.

CENTEGRA HEALTH SYSTEM

POSITION DESCRIPTION

TITLE: Coordinator Cardiac Cath

DEPARTMENT: Cardiac Cath Lab

DATE: January 17, 2008 **FLSA STATUS**: Non-Exempt

PRINCIPAL RESPONSIBILITIES

This position integrates the CHS values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers.

This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis.

Identification of population served by this position:

Holistic: Ability to work with others to define a common vision to move toward; integrates thought, values, and action to seize new opportunities.

PRINCIPAL RESPONSIBILITIES

Oversees and evaluates Associates for Cardiology services includ9ing Open Heart Surgery, Cardiac Cath Lab, and Robotic Services. Plans and coordinates work flow and schedules. Ensures 24 hour coverage for areas of specialty. Assesses delivery of nursing care in accordance with age of patient. Identifies problems with nursing care and areas for improvement.

Establishes policies and procedures in accordance with hospital policies and federal, state, and local laws. Maintains up-to-date knowledge of nursing practice and hospital policies and procedures. In conjunction with the Director, develops department budget, and monitors and evaluates performance against the budget. Reviews all training programs for personnel. Works with Department of Education to plan and develop ongoing educational opportunities.

Leads monthly unit meetings; participates in departmental and organizational meetings.

Promotes the idea of continuous Quality Improvement by participating and/or by providing Associates with the opportunity to participate on various teams to improve Customer satisfaction. Oversees the collection and dissemination of data for quality purposes and reports to agencies as defined by the department.

In conjunction with the Director, interviews, hires, orients, trains and evaluates the performance of and, when necessary, recommends the discipline and discharge of Associates. Performs ongoing Associate evaluations.

Demonstrates the knowledge and the skills necessary to provide the care appropriate to the age of the patients served on the assigned unit.

Demonstrates knowledge of the principles of growth and development over the life span, and possesses the ability to assess data reflective of the patient's status. Includes being able to interpret the appropriate information needed to identify each patient's requirements relative to the patient's age-specific needs.

Provides the care needed as described in the units/department's policies and procedures, as well as in the clinical competency checklist for the position and patient age group.

This position integrates the CHS values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers.

This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis.

This position actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every Associate with in CHS.

Performs other related duties as assigned.

MINIMUM EDUCATION/REGISTRATION/CERTIFICATION

Registered Nurse (Illinois) - preferred
CPR - Required
Bachelor's Degree - preferred

MINIMUM EXPERIENCE

Critical Care experience
Leadership Experience 1 to 2 years
Operating Room experience 1 to 2 years

OTHER

Physical Ability to Perform Functional Requirements as Detailed

EOE M/F D/V

CENTEGRA HEALTH SYSTEM

POSITION DESCRIPTION

TITLE: RN II

DEPARTMENT: Nursing

DATE: May 2001, March 2007 **FLSA STATUS**: Non-Exempt

NATURE AND SCOPE OF POSITION

The RN II is a registered nurse who independently plans and implements routine nursing care in predictable situations using established standards. The RN II needs minimal supervision and is beginning to demonstrate leadership behaviors.

PRINCIPAL RESPONSIBILITIES

This position integrates the CHS values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers.

This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis.

This position actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every Associate with in CHS.

Identification of population served by this position: Neonate through Geriatric as determined by the department scope of service.

Meets all RN I behaviors.

Prescribes, delegates and coordinates all nursing care for patients on assigned unit utilizing the nursing process. Seeks guidance during the planning and implementation phases when delivering care to the complex patient.

Maintains "independent practitioner" status for all core competencies.

Accumulates a minimum of 8-education contact hours annually.

Meets expectation of the 14 points of Nursing.

Nursing documentation reflects appropriate use of the nursing process 85-90% of the time.

Initiates and conducts at least one patient care, or case study conference annually.

Demonstrates knowledge regarding the biological, psychosocial, ethnic and religious needs of the patient population, in addition to the age-specific learning needs, and incorporates those needs into the individualized plan of care.

Assess data accurately in terms of the patient's status and age-specific needs.

Functions as a preceptor /clinical resource to staff on the unit and submits constructive written evaluation when requested.

Guides and supervises assigned nursing personnel in delivering patient care.

Promotes compliance with System and department specific policies and procedures by following established clinical guidelines and using all available resources.

Accepts and profits from Coaching.

This position performs other duties as assigned.

MINIMUM KNOWLEDGE, SKILL AND ABILITIES REQUIRED

Holds current IL license in good standing.

Completes 1000 hours of recent hospital experience in specialty or unit areas within the last 12 months or is able to demonstrate required competence.

Able to perform 95% of unit-specific skills and provide instruction to others on 80-90% of those skills.

Willingness to work in a team environment.

Analytical skills necessary in order to gather and interpret routine data, maintain patient records, organize workflow and prioritize patient needs.

Physical ability to perform functional requirements as detailed.

CENTEGRA HEALTH SYSTEM

POSITION DESCRIPTION

TITLE: RN IV

DEPARTMENT: Nursing

DATE: **May 21, 2001** **FLSA STATUS**: Non-Exempt
Reviewed: **January 2006**

NATURE AND SCOPE OF POSITION

The RN IV is a Registered Nurse who manages unusually complex patient situations resulting in satisfactory outcomes. The RN IV assesses effectiveness of the unit or department patient care processes, and partners with the management team to initiate action in order to improve such processes.

PRINCIPAL RESPONSIBILITIES

This position integrates the CHS values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers.

This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis.

This position actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every Associate within CHS.

Identification of population served by this position: Neonate through Geriatric as determined by the department scope of service.

Meets all RN III expectations.

Functions in an advanced clinical role demonstrating expert knowledge in the care of a specific patient population.

Expertly utilizes the nursing process to provide care to the complex patient. Readily shares knowledge with other members of the health care team.

Serves as a clinical resource to hospital personnel in the care of a specific patient population.

Originates, develops, and implements ideas leading to performance improvement in patient care.

Coordinates and updates unit specific orientation and preceptor programs. Serves as a preceptor.

Develops and presents a minimum of 2 inservices/year in area of expertise. Facilitates workshops/inservices with positive participation and evaluation from participants.

Nursing documentation reflects appropriate use of the nursing process 95-100% of the time.

Actively participates in the evaluation of unit/department staff.

Annually accumulates a minimum of 12-education contact hours.

Demonstrates on-going professional development in either management or education and research.

Serves as a chair for hospital/unit committees/councils. Serves as a member of the Nursing Practice Council.

Consistently models professional behavior and demonstrates leadership in a variety of situations.

Seeks and accepts assignments relative to clinical practice and unit-based activities.

Annually submits a professional practice portfolio and a 12-month plan to the department leader.

This position performs other duties as assigned.

MINIMUM KNOWLEDGE, SKILL AND ABILITIES REQUIRED

Holds current IL license in good standing.

Bachelors Degree in Nursing required.

Certification in area of specialty required.

Completes a minimum of 10,000 hours of recent continuous hospital experience in the specialty unit or area.

Must work a minimum of 32 hours/week (0.8FTE)

Able to perform and provide instruction on 100% of unit-specific skills.

Willingness to work in a team environment

Analytical skills necessary in order to gather and interpret complex and routine data, maintain patient records, organize workflow and prioritize patient needs.

Physical ability to perform functional requirements as detailed.

Demonstrates effective interpersonal and communication skills.

OTHER

Internal application process is required.

CENTEGRA HEALTH SYSTEM

POSITION DESCRIPTION

TITLE: Angiographer II

DEPARTMENT: Medical Imaging

DATE: April, 1997
REVIEWED: October, 1999
Revised: November 2002

FLSA STATUS: Non-Exempt

Nature and Scope of Position

Operates equipment to produce diagnostic radiographs and for appropriate age groups for interpretation(s) by a physician. Maintains proficiency in clinical and equipment competencies in all clinical settings.

Skill Requirements

Ability to operate cardiac cath lab equipment, to include x-ray units, monitors, hemodynamic unit, with knowledge and expertise.

Ability to operate angiography equipment with knowledge and expertise.

Ability to coordinate and prioritize in emergent or critical patient situations.

Demonstrates efficiency in the use of supplies and equipment while maintaining sterility during procedures.

Assists in the assessment of patient condition throughout procedures.

Utilizes technical and clinical skills to assist the physician during procedures to assure patient safety.

Monitors all procedure functions to assist in the prevention of adverse outcomes.

Able to alter examination relative to patient status to provide optimal outcome.

Provides the physician with proper clinical diagnosis and patient history documentation.

Works with the physician to provide optimal exam for accurate diagnosis.

Coordinate schedule for optimal equipment utilization and patient flow.

Maintains adequate supplies and workspace for efficient daily operation.

Maintains quality control for all equipment in accordance with manufacturer and regulatory guidelines.

Ability to start IV's as indicated for contrast injection with proper documentation.

Demonstrates knowledge of the principles of growth and development over the life span, and possesses the ability to assess data reflective of the patient's status. Includes being able to interpret the appropriate information needed to identify each patient's requirements relative to the patient's age-specific needs.

This position integrates the CHS values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers.

This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis.

This position actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every Associate with in CHS.

This position performs other duties as assigned.

QUALIFICATION GUIDELINES

Education/Certification/Registration

American Registered Radiologic Technology (ARRT) - required
Illinois Department of Nuclear Safety Certified (IDNS) - required
Interventional Cardiovascular Registered (CVT) - preferred
Intra-aortic Balloon Insertion & Operation experience - preferred
CPR certification - required
ACLS certification - preferred

Experience

1 or more years hospital Medical Imaging experience- preferred

Other

Physical ability to perform functional requirements of position.

EOE M/F D/V

CENTEGRA HEALTH SYSTEM

POSITION DESCRIPTION

TITLE: Lead Angiographer

DEPARTMENT: Cardiac Cath Lab

DATE: February, 2004 FLSA STATUS: Non-Exempt
Reviewed:
Revised:

NATURE AND SCOPE OF POSITION

Operates **equipment to produce diagnostic images** and for appropriate age groups for interpretation(s) by a physician. Maintains proficiency in clinical and equipment competencies in all clinical settings.

PRINCIPAL RESPONSIBILITIES

Ability to develop skills necessary to become a consultant to physician.

Ability to operate cardiac cath lab equipment, to include x-ray units, monitors, hemodynamic unit, with knowledge and expertise.

Ability to coordinate and prioritize in emergent or critical patient situations.

Demonstrates efficiency in the use of supplies and equipment while maintaining sterility during procedures.

Assists in the assessment of patient condition throughout procedures.

Utilizes technical and clinical skills to assist the physician during procedures to assure patient safety and provide optimal outcome.

Monitors all procedure functions to assist in the prevention of adverse outcomes.

Able to alter examination relative to patient status to provide optimal outcome.

Provides the physician with proper clinical diagnosis and patient history documentation.

Works with the physician to provide optimal exam for accurate diagnosis.

Coordinate schedule for optimal equipment utilization and patient flow.

Maintains adequate supplies and workspace for efficient daily operation.

Ability to anticipate physician's needs and make decisions to provide optimal outcomes.

Maintains quality control for all equipment in accordance with manufacturer and regulatory guidelines.

Maintains supply inventory and orders supplies, as necessary.

Works as a liaison between physicians and management to keep open lines of communication.

Keeps Chargemasters up-to-date.

Reviews CPT and HCPS codes to ensure coding is up-to-date.

Coordinates inservices.

Works with field representatives to keep technology and equipment up-to-date.

Ensures equipment is functioning properly and places/follows-up on service calls, as needed.

Ability to troubleshoot computer equipment.

Ability to build and alter computer macros.

Works with Purchasing to provide proper documentation for purchase orders.

Schedules.

Assists in equipment choice.

Closure device proctor.

Closure devices (performs).

Monthly, quarterly and annual statistics.

Demonstrates knowledge of the principles of growth and development over the life span, and possesses the ability to assess data reflective of the patient's status. Includes being able to interpret the appropriate information needed to identify each patient's requirements relative to the patient's age-specific needs.

Access Site Management – Demonstrates knowledge of closure devices; ability to obtain hemostasis utilizing manual pressure; and ability to recognize and manage complications.

Interventional Cardiology – Demonstrates knowledge and location of interventional supplies; and ability to anticipate and intervene during interventional complications.

Angiojet – Completes Angiojet competency; demonstrates knowledge of use and troubleshooting of Angiojet equipment; and knowledge of patient assessment and required intervention during Angiojet procedure.

The technologist will be able to perform the following duties in the Cardiac Cath Lab:

1. Left Heart Cath with a LV angiogram
2. Right Heart Cath with Pressure Waves; Cardiac
3. Outputs and Blood Samples; Set-up and Use of Swan-Ganz Catheter
4. Left and Right Heart Caths
5. Knowledge and Training in Proper Sterile Techniques Procedures/Scrub Technique
6. Percutaneous Femoral Approach and Set-up
7. Brachial Approach and Set-up
8. Insertion of IABP
9. Insertion of Pacemakers
10. Insertion of Temporary Pacemakers/Pacing Swan-Ganz Catheters
11. Insertion of AICD Pacemakers
12. Use of AngioJet and Set-up
13. Pericardiocentesis
14. Insertion of Vena Cava Filters
15. Ascending Aortography
16. Pulmonary Angiography
17. Peripheral Vascular Angiography
18. Digital Subtraction Angiography
19. Selective Angiography
20. Carotid Arteriogram
21. Brachial/Subclavian Arteriogram
22. Aortic Arch/Great Vessels Arteriogram
23. Renal Arteriogram
24. Femoral Arteriogram
25. Abdominal Arteriogram
26. Mesenteric Arteriogram
27. Peripheral Angioplasty/Stenting
28. Colangiograms
29. Biliary Drainage and Stenting
30. Gastrostomy Tube Insertion
31. Nephrostomy Tube Insertion
32. Venograms
33. Embolization Procedures
34. Dialysis Shunt Fistulagrams
35. PICC Line Insertion
36. Abscess Drainage
37. Epidural Steroid Injections
38. Thrombolysis Procedures
39. Myelograms

The technologist is also responsible for knowing how to use the following equipment in the Cardiac Cath Lab:

1. GE Innova 2000 Cardiovascular Imaging System
2. Siemens Axiom Artis Cardiovascular/Peripheral Imaging System
3. Marquette Hemodynamic Monitoring System
4. Med-Rad Contrast Injectors
5. Intra-aortic Balloon Pumps – Set-up/Insertion
6. Hemoximeter
7. ACT machine
8. Site-Rite Vascular Ultrasound
9. PAC System for Storing and Retrieving Patient Information

The technologist is also responsible for Radiation Safety in the Cardiac Cath Lab. To maintain proper maintenance of all radiographic equipment, to ensure that all patients and staff members entering the Cath Lab are properly protected.

This position integrates the CHS 17 Service Excellence Standards into each of the responsibilities of this job and daily communication with our customers and co- workers.

This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis.

This position actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every Associate with in CHS.

This position adheres to and promotes HIPAA regulations.

This position promotes service recovery.

This position performs other duties as assigned.

MINIMUM KNOWLEDGE, SKILL AND ABILITIES REQUIRED

American Registered Radiologic Technology (ARRT) - required

Illinois Department of Nuclear Safety Certified (IDNS) - required

Interventional Cardiovascular Registered (CVT) - preferred

Cardiovascular Certification – preferred.

Intra-aortic Balloon Insertion & Operation experience – preferred

CPR Certification - required

ACLS Certification - required

1 or more years hospital Medical Imaging experience - Required

Physical ability to perform functional requirements of position.

CENTEGRA HEALTH SYSTEM

POSITION DESCRIPTION

TITLE: **Cardiovascular Technician-Registered**

DEPARTMENT: **Cardiology Services**

DATE: **September 2006** **FLSA STATUS: Non-exempt**

NATURE AND SCOPE OF POSITION

Under the direct supervision of the Clinical Coordinator, the CVT will complete tasks within the scope of technical levels of practice

PRINCIPAL RESPONSIBILITIES

Provides clean and safe environment for patient care by following the Cath Lab policy for maintaining sterility during invasive procedures and preparation of instruments

Stocks and maintains par levels as needed

Assembles case instruments and equipment for scheduled and emergency cases and reports missing supplies, instruments and equipment promptly to the Clinical Coordinator or the Lead Angiographer.

Assists Cath Lab personnel and physicians with invasive procedures by performing scrub duties, recording or opening sterile supplies.

Handles materials and performs services in strict conformance to aseptic, sterile or isolation techniques.

This position provides care to young adults and older.

This position integrates the CHS values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers.

This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis.

This position actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every Associate with in CHS.

This position performs other duties as assigned.

There are three levels of CVT's based on their demonstrated clinical skills, years of experience, and RCIS certification.

CVT Level I

Basic entry level, remain in this level for 6 months to 1 year depending on experience and skill proficiency.
Acquire basic job related information and tasks. (i.e. cardiac anatomy on physiology, procedural and sterile technique, cardiac rhythms, hemodynamic principles, basic patient assessment.
Learn CCL policy and procedures and cath lab standards.
Demonstrates basic skills in diagnostic and interventional procedures (set up) and role performance (scrubbing) for CCL services, right and left heart cath, Coronary angiography, femoral approach, PTCA, Blood gas/co oxymeter.
Credentials/Proficiency in BCLS, defibrillation, basic arrhythmia course, review process for on-call responsibilities
Responsible for patient procedure and supply costs.

CVT Level II

Demonstrates competency in skills acquired in Level I
Demonstrates proficiency in scrubbing (cardiac diagnostic, intervention, peripherals, renal diagnostic and intervention, brachytheraphy, IABP setup table, IVUS, angiojet, cutting balloon, percusurge, wave wire)
Demonstrates ability to problem solve, recognize QA problems and troubleshoot transducer, patient care
Recognize a patient problems (complications) reports abnormalities and anticipates corrective measures.
Assumes on-call responsibilities
Provide preceptorship to CVT Level I after one year
Participates on a hospital/departmental committee/ task force
Acquire basic cardiac pharmacology
Credentialed/proficiency on the following skills: Hemostasis maintenance, identify and monitor of hematoma, suturing, topical hemostasis accelerators, suture devices

CVT Level III

Must have 3 to 5 years CCL experience
Minimum 2 years of college or is RCIS or CCI certified (Cardiovascular Credentialing International)
Demonstrates ongoing competency and proficiency in skills acquired in Level II
Acquire skills in set up and performance on Angiojet, IVUS imaging, wavewire set up, rotoblader, and any new procedures introduced into the CCL.
Acts as resource for all complex situations for CCL staff and physicians
Acquire/ability/proficiency in monitoring basic right and left heart cath
Acquire knowledge of advance cardiac pharmacology
Demonstrates and understands hemodynamic recording features and ancillary equipment

Anticipates problems based on technical assessments
Provides one educational opportunity per year
Credentialed/Proficiency on the following advanced skills: ACLS, IV setup (therapy), cut down for arms (Sones approach)

MINIMUM KNOWLEDGE, SKILLS AND ABILITIES REQUIRED

Education:

High School Diploma – required
Completed and documented training from an accredited CVT Eprogram/school required

Licensure/Certification:

BCLS – Required within 6 months of employment
ACLS – Required within 1 year
RCIS – Certification after 2 years of on the job training

Work Experience:

On-the-job training, specific to the Cardiac Catheterization Lab and - Preferred
Length of on-the-job experience to learn role at Centegra Health System: 3 months
Physical ability to perform functional requirements as detailed - Required

Physical/Mental Requirements:

Very active; works on feet 75-100% of the time; involves twisting, bending, squatting, walking, stooping, kneeling, reaching, pushing, pulling, and lifting. Capable of lifting weights ranging between 10-50 pounds. Involves patient transport and pushing and pulling of large objects. May wear lead weighing 14 to 15 pounds to accomplish task in the procedure rooms.

EOE M/F D/V

CENTEGRA HEALTH SYSTEM

POSITION DESCRIPTION

TITLE: **Cardiology Assistant**

DEPARTMENT: **Cardiology Services/Cath Lab**

DATE: **3/2006, 7/2006, 6/2007** **FLSA STATUS:** **Non-Exempt**

NATURE AND SCOPE OF POSITION

Under the direct supervision of the Clinical Coordinator, the Cardiology Assistant (CA) provides delegated care to the patient in the Cardiac Catheterization Lab. The CA assists in daily activities of the department, including, but not limited to, patient transport, housekeeping activities, instrument processing, and stocking duties, cleaning and maintaining Operating Room equipment.

PRINCIPAL RESPONSIBILITIES

Provides clean and safe environment for patient care by following OR policy for cleaning and preparation of instruments for sterilization, monitoring indicators for proper function of autoclaves and proper cleaning and care of instruments.

Transports patients for required services with proper identification.

Stocks and maintains par levels of supplies in assigned area.

Assembles case stock, instruments and equipment for scheduled and emergency cases and reports missing supplies, instruments and equipment promptly to the Clinical Coordinator or the Lead Angiographer.

Transports lab specimens, x-rays and performs other errands as required and necessary to provide safe patient care.

Assists Cath Lab personnel with invasive procedures.

Handles materials and performs services in strict conformance to aseptic, sterile or isolation techniques.

This position provides care to young adults and older.

This position integrates the CHS values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers.

This position adheres to and is responsible for the safety standards of Centegra Health

System including the completion of the mandatory organizational safety standards on an annual basis.

This position actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every Associate with in CHS.

This position performs other duties as assigned.

MINIMUM KNOWLEDGE, SKILLS AND ABILITIES REQUIRED

Education:

High School Diploma - Minimum

Licensure/Certification:

BCLS – Required within 6 months of employment
Certified Nurses Aide - Preferred

Work Experience:

On-the-job training, specific to the Cardiac Catheterization Lab and - Preferred
Length of on-the-job experience to learn role at Centegra Health System: 4 weeks
Physical ability to perform functional requirements as detailed - Required

Physical/Mental Requirements:

Very active; works on feet 75-100% of the time; involves twisting, bending, squatting, walking, stooping, kneeling, reaching, pushing, pulling, and lifting. Capable of lifting weights ranging between 10-50 pounds. Involves patient transport and pushing and pulling of large objects. May wear lead weighing 14 to 15 pounds to accomplish task in the procedure rooms.

EOE M/F D/V

CENTEGRA HEALTH SYSTEM

POSITION DESCRIPTION

TITLE: **Health Unit Coordinator**

DEPARTMENT: **Nursing**

DATE: **Revised May, 2001**
February, 2006

FLSA STATUS: Non-Exempt

NATURE AND SCOPE OF POSITION

Under general supervision of Nurse Manager/Director and according to established policies and procedures, provides clerical support for assigned nursing units. In doing so, transcribes Physicians' orders, schedules diagnostic tests and therapies for patients, assembles and maintains patients' charts, answers telephone and intercom calls, providing routine, approved information, and relays other calls and messages. Facilitates a well organized working environment.

PRINCIPAL RESPONSIBILITIES

This position integrates the CHS values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers.

This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis.

Identification of population served by this position: Neonate through Geriatric.

This position actively maintains confidentiality for our patients and their families as outlined in the CHS Patient Confidentiality Policy and shows the same level of respect for every Associate with in CHS.

Maintains good communications at all times, i.e. physicians, staff, other departments, telephones, intercoms, bulletin boards, fax machines, computers, etc.

Performs other clerical duties as necessary, i.e., filing, errands, keeps environment orderly, put away supplies, update kardex, schedule procedures, assist with visitors,etc.

Works on problem solving with the nursing staff in varying and unexpected situations.

Transcribes and/or enters orders/charges on requisition forms and/or into the computer, i.e., lab work, x-rays, meals, stat tests, department charges, medications, etc.

Completes appropriate documentation on medical records.

Assists with limited patient transfers (including chart) and passing trays.

Maintains personal growth and development through mandatory in-services, meetings and other educational opportunities.

This position performs other duties as assigned.

MINIMUM KNOWLEDGE, SKILLS AND ABILITIES REQUIRED:

High School Diploma - Required.

Clerical experience – Preferred.

OTHER SKILLS

Ability to Read and Write in order to complete requisitions, to understand complicated verbal and written instructions, ordering prescribed meals and transcribing Physicians' orders accurately and legibly.

Excellent Organizational and Communication Skills

Performs Basic Arithmetic Calculations in order to calculate Total Patient Census

Demonstrates technical skills and safety in operating necessary equipment, i.e., computer, imprinter device, etc.

Analytical Skills necessary in order to gather and interpret routine data, maintain Semi-complex records, and organize work.

Ability to Concentrate and Pay Close Attention to Detail for up to eighty percent of work time when transcribing physician orders and arranging appointments and services in accordance with established schedules and deadlines.

Ability to sit for prolonged periods and occasionally (up to twenty percent of work time) walk and stand when filing, photocopying and running errands.

Ability to handle stress in a productive and professional manner.

CENTEGRA HEALTH SYSTEM

POSITION DESCRIPTION

TITLE: **Nurse Technician**

DEPARTMENT: **Multiple**

DATE: **November, 1996**
November, 1999

FLSA STATUS: Non-Exempt

NATURE AND SCOPE OF POSITION

Provides basic patient care to ensure the patients' personal comfort and hygiene needs under the direct supervision of a Registered Nurse. Observes the emotional, behavioral, and physical state of the patient. Monitors patient's vital signs and assists with medical procedures as ordered by the physicians.

PRINCIPAL RESPONSIBILITIES

Assists patient with personal needs and escorts or transports patient within the facility, including discharge. Prepares patient rooms and beds for receiving patient admissions.

Assists staff nurse with general nursing care, such as positioning, lifting, and turning patients. Helps apply complicated treatments and procedures requiring more than one person to perform.

Monitors the emotional, behavioral, and physical state of the patient and communicates or logs the condition and any changes to the Registered Nurse. Monitors vital signs.

Transports lab specimens, pharmaceuticals orders, and supplies when necessary. Gathers suppliers and special equipment needed to each case. Cleans all flat surfaces and ready contaminated supplies for sterilization.

Demonstrates the knowledge and the skills necessary to provide the care appropriate to the age of the patients served on the assigned unit.

Demonstrates knowledge of the principles of growth and development over the life span, and processes the ability to assess data reflective of the patient's status. Includes being able to interpret the appropriate information needed to identify each patient's requirements relative to the patient's age-specific needs.

Provides the care needed as described in the unit's/department's policies and procedures, as well as in the clinical competency checklist for the position and patient age group.

Continues educational development.

Actively participates in organizational development programs and encourages staff participation throughout the department.

This position integrates the CHS values of genuine respect, passionate caring and a joyful spirit into each of the responsibilities of this job and daily communication with all customers and co-workers.

This position adheres to and is responsible for the safety standards of Centegra Health System including the completion of the mandatory organizational safety standards on an annual basis.

Objective

To incorporate the osteopathic philosophy of "mind, body, soul" in my approach to patient care, focusing on preventative medicine. My main objective is to treat my patients with care and attention, offering them the tools they need to properly manage their own care while also offering them the medical attention they require in times of need.

Experience

Board certified general cardiologist

August 2008 – Present | Heart and Vascular of Lake County, Gurnee IL

- Specialization in invasive, non-intervention cardiology
- Focus includes diagnostic heart catheterizations, echocardiography (including transesophageal), nuclear cardiology, and clinical cardiology

Active Staff Physician

August 2008 – Present | Advocate Condell Medical Center, Libertyville IL

- General cardiology subspecialty of internal medicine

Active Staff Physician

August 2008 – Present | Vista Medical Center, Waukegan IL

- General cardiology subspecialty of internal medicine

Active Staff Physician

August 2008 – Present | Midwest Regional Medical Center, Zion IL

- General cardiology subspecialty of internal medicine

Clinical Instructor

2002 – 2008 | Michigan State University College of Osteopathic Medicine, East Lansing MI

- Instruction of medical students with the department of Family and Community Medicine

Education

Cardiology Fellow

2005 – 2008 | Michigan State University / Ingham Regional Medical Center (IRMC), Lansing MI

Clinical trials performed while on staff with the Thoracic Cardiovascular Institute at IRMC:

- Early ACS: Sub-investigator
- MBG312: Sub-investigator
- Act IV: Sub-investigator
- RethinQ: Sub-investigator
- Ascend HF: Sub-investigator

Internal Medicine Residency

2003 – 2005 | Michigan State University / Ingham Regional Medical Center, Lansing MI

Tracked Internship (Internal Medicine)

2002 – 2003 | Michigan State University / Ingham Regional Medical Center, Lansing MI

Doctor of Osteopathic Medicine

2000 – 2002 | Genesys Regional Medical Center, Grand Blanc MI

1998 – 2002 | Michigan State University College of Osteopathic Medicine, Lansing, MI

Bachelor of Science

1994 – 1998 | Michigan State University, Lansing MI

Physiology major (with honors)

Licenses & Certifications

2008 – 2018 | Cardiology Subspecialty: American Osteopathic Board of Internal Medicine

2009-2019 certification board Nuclear cardiology

2005 – 2015 | American Osteopathic Board of Internal Medicine

COMLEX I, II, III (comprehensive osteopathic medicine licensing examinations)

AHA ACLS/BCLS certified

Eligible for the following boards: Echocardiography, & coronary CT angiography through the college of American Cardiology

Memberships

American College of Cardiology

American Society of Echocardiography

American Society of Nuclear Cardiology

American College of Osteopathic Internists

American Osteopathic Association

Illinois Osteopathic Medical Society

Lake County Medical Society

Interests

Black belt in Shotokan Karate, scuba diving, underwater photography, basketball, golf, building computers, and watching movies

OPEN HEART SURGERY PATIENT TRANSFER AGREEMENT

Centegra Health System, Northern Illinois Medical Center and Centegra Health System, Centegra Hospital Huntley

This Open Heart Surgery Patient Transfer Agreement (hereinafter "Agreement"), is made and entered into this 20 day of October, 2014, by and between **Centegra Health System, Northern Illinois Medical Center**, an Illinois not-for-profit corporation (hereinafter "NIMC") **and Centegra Health System, Centegra Hospital Huntley**, an Illinois not-for-profit corporation (hereinafter "CHH").

RECITALS

a. CHH provides healthcare services, including certain cardiology services such as cardiac catheterization services to residents of Huntley, Illinois and surrounding communities; and

b. NIMC provides healthcare services, including open heart surgical services to residents of McHenry, Illinois and surrounding communities; and

c. NIMC and CHH have determined that it is in the best interest of patient care and promotes optimum use of facilities to enter into a transfer agreement for transfer of patients needing open heart surgery from CHH to NIMC in accord with the transfer protocols mutually developed and approved by CHH and NIMC.

NIMC AND CHH AGREE AS FOLLOWS:

1. **Term**: This Agreement shall be effective for one year and shall be renewed automatically for successive periods of one (1) year, unless terminated as herein provided.

2. **Purpose of Agreement**: This Agreement is intended to establish a system for patient transfer where appropriate for individual patients at CHH. This Agreement is in no way intended to interfere with physician treatment decision-making, patient freedom of choice, or to guarantee patient referrals.

3. **Patient Transfer**: CHH agrees to transfer to NIMC, and NIMC agrees to accept patients from CHH who require open heart surgical services, in accordance with the mutually developed and approved patient transfer protocols as amended from time to time which are attached hereto and incorporated herein (**Attachment A**). The request for transfer of a patient from CHH to NIMC shall be made by the patient's attending physician. When a determination of the need for transfer has been made by the patient's attending physician, CHH shall immediately notify NIMC in accordance with the approved protocols for patient transfer. Each hospital shall provide the other hospital with the names or classifications of persons authorized to initiate, confirm, and accept the transfer of patients on behalf of the hospital. NIMC agrees to admit the patient as promptly as possible, provided that the protocols are followed, all conditions of eligibility for transfer are met, and the surgical team and bed space are available to accommodate the patient. NIMC shall provide services for patients it accepts on transfer in accordance with its policies and with all applicable laws and regulations governing the operation and conduct

of healthcare facilities. NIMC will treat transferred patients in accordance with the same standards applicable for all of its patients.
In the event NIMC does not have proper facilities to treat transferred patients, or in the event of circumstances beyond its reasonable control, such as disaster, epidemic, war, complete or partial destruction of facilities, disability of a significant number of personnel or labor disputes, NIMC shall accept transferred patients and provide services to transferred patients to the extent possible according to its best judgment and limitations to such facilities and personnel as are then available.

4. **Provision of Information**: Both parties agree to adopt standard forms containing medical and administrative information to accompany the patient from one hospital to the other. The information shall include, when appropriate, the following:
   A. Patient's name, address, hospital number, age, and name, address, and telephone number of next of kin;
   B. History of the injury or illness;
   C. Condition on admission;
   D. Vital signs pre-hospitalization, during stay in emergency department or during a cardiac catheterization, angioplasty, or other cardiac service at CHH and at time of transfer;
   E. Treatment provided to patient, including medications given and route of administration, plus any known allergies;
   F. Laboratory and x-ray findings, including films;
   G. Fluids given, by type and volume;
   H. Name, address, and phone number of physician referring patient;
   I. Name of physician in receiving hospital to whom patient is to be transferred;
   J. Name of physician at receiving hospital who has been contracted about patient;
   K. Patient's third party billing data.

   Each party agrees to supplement the above information as necessary for the maintenance of the patient during transport and treatment upon arrival at the receiving hospital. All information provided shall be provided in a manner consistent with state and federal laws and regulations regarding the release of information and patient privacy.

5. **Transfer Consent**: CHH shall have responsibility for obtaining the patient's informed consent for the potential transfer to NIMC prior to performing coronary angioplasty, if the patient is competent. If the patient is not competent, the consent of a family member shall be obtained.

6. **Payment for Services**: The patient is primarily responsible for payment for care provided by NIMC or CHH. Each party shall be responsible only for collecting its own payment for services rendered to the patient. No clause of this Agreement shall be interpreted to authorize either hospital to look to the other hospital to pay for services rendered to a patient transferred by virtue of this Agreement.

7. **Termination**: This Agreement may be terminated by either party for any reason, by giving sixty (60) days prior written notice of its intention to withdraw from this

Agreement. In the event of a material breach of this Agreement by either party, the other party shall have the right to terminate this Agreement by service of written notice upon the defaulting party ("Default Notice"). In the event such a breach is not cured to the satisfaction of the non-breaching party within thirty (30) days after service of the Default Notice, this Agreement shall terminate immediately at the election of the non-defaulting party upon written notice of termination to the breaching party. The termination provisions of this paragraph 11, with the exception of termination for material breach, shall not be applicable in the first one-year term.

8. **Non-waiver**: No waiver of any term or condition of this Agreement by either party shall be deemed a continuing or further waiver of this same term or condition or a waiver of any other term or condition of this Agreement.

9. **Invalid Provision**: In the event that any portion of this Agreement shall be determined to be invalid or unenforceable, the remained of this Agreement shall be deemed to continue to be binding upon the parties hereto in the same manner as if the invalid or unenforceable provision were not a part of this Agreement.

10. **Amendment**: This Agreement may be amended at any time by a written agreement signed by the parties hereto.

11. **Assignment**: This Agreement shall not be assigned in whole or in part by either party hereto without the express written consent of the other party.

12. **Authorization for Agreement**: The execution and performance of this Agreement by each party has been duly authorized by all necessary laws, resolutions, or corporate actions, and this Agreement constitutes the valid and enforceable obligations of each party in accordance with its terms.

13. **Headings and Recitals**: The headings to the various sections of the Agreement and Recitals shall not modify, define, limit, or expand the operative provisions of this Agreement.

14. **Governing Law**: This Agreement shall be governed and construed in accordance with the laws of the State of Illinois.

15. **Notice**: All notices provided for in this Agreement shall be in writing, duly signed by the party giving such notice, and shall be sent by Federal Express or other reliable overnight courier, sent by fax, or mailed by registered or certified mail, return receipt requested, postage prepaid, as follows:

OPEN HEART PATIENT TRANSFER AGREEMENT

Centegra Health System, Northern Illinois Medical Center ("NIMC") and Centegra Health System, Centegra Hospital Huntley ("CHH")

PROTOCOLS

1. Scheduling of non-emergency interventional catheterization procedures:
   - Hours: 8:00 a.m. – 4:00 p.m.
   - For low-risk intervention only

2. Notification of scheduled interventional procedures to NIMC:
   - Faxed prior day in advance to (815) 759-4414
   - Place CPOE order in EHR
   - Call for standby ambulance air transfer service

3. Notification regarding non-scheduled and emergency procedures:
   - If Cath Lab notified of procedures – they will notify surgeon on call and Admitting
   - Between hours of 8:00 a.m. – 4:00 p.m., call Cath Lab at (815) 759-4727
   - If Nursing Supervisor notified – they will notify Admitting
   - Weekend and off-hours, page Nursing Supervisor at (815) 759-4249

4. Open heart surgeon's consult and discussion of options with cardiologist;

5. Procedure for activating open heart surgical team:
   - Upon MD decision to transfer call
   - Normal hours: Call NIMC Main Surgery Desk (815) 759-4020
   - After hours: Call Nursing Supervisor at (815) 759-4249

6. Notification to NIMC regarding availability and unavailability of open heart surgeon:
   - CHH Cardiac Catheterization Coordinator:
   - Attending CSA Surgeon
   - Cath Lab Manager

X.
1120.120 Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: Indicate the dollar amount to be provided from the following sources:

$3,153,066 **a) Cash and Securities**
Pages from the FY14 Audited Financials start on page 2 of this attachment showing that the amount of cash is available for this project. FY14 Cash and Securities on hand totaled $194,167,000 (excluding the Bond indenture funds and the charitable trust funds) compared to a total project cost of $3,153,066.

$0 **b) Pledges**
This section does not apply because the applicant is using cash to fund the project.

$0 **c) Gifts and Bequests**
This section does not apply because the applicant is using cash to fund the project.

$0 **d) Debt**
This section does not apply because the applicant is using cash to fund the project.

$0 **e) Government Appropriations**
This section does not apply because the applicant is using cash to fund the project.

$0 **f) Grants**
This section does not apply because the applicant is using cash to fund the project.

$0 **g) All other Funds and Sources**
This section does not apply because the applicant is using cash to fund the project.

$3,153,066 **TOTAL FUNDS AVAILABLE**

(6) Investments

The Health System reports investments in equity securities with readily determinable fair values and all investments in debt securities at fair value. Fair value is determined primarily on the basis of quoted market prices or other observable market inputs. A summary of the composition of the Health System's investment portfolio at June 30, 2014 and 2013 is as follows:

		2014	2013
Certificates of deposit/repurchase agreements	$	1,025	1,025
Money market funds		140,580	19,792
Mutual bond funds		62,885	55,067
Mutual equity funds		112,958	95,622
Interest in investments of charitable remainder trusts		2,006	1,734
	$	319,454	173,240

Investments are reported in the accompanying consolidated statements of financial position at June 30, 2014 and 2013 as follows:

		2014	2013
Short-term investments	$	18,568	17,982
Assets limited as to use:			
Internally designated for capital improvements		43,966	38,361
Under bond indenture agreements – held by trustee		130,209	7,949
Interest in investments of charitable remainder trusts		2,006	1,734
Long-term investments		124,705	107,214
	$	319,454	173,240

319,454 + 6,920 = 326382
(130,209 + 2006) = (132,215)

The composition of investment return from the Health System's investment portfolio for 2014 and 2013 is as follows:

194,167

		2014	2013
Interest and dividend income, net of fees and expenses	$	7,352	6,014
Realized gains, net		885	7,192
Change in fair value of charitable remainder trusts		272	(40)
Net change in unrealized gains and losses during the holding period		16,606	(359)
	$	25,115	12,807

Changes in unrealized gains and losses during the holding period are attributable to other-than-trading securities and, accordingly, are excluded from the determination of revenue and gains in excess of

CENTEGRA HEALTH SYSTEM AND AFFILIATES

Consolidated Statements of Financial Position

June 30, 2014 and 2013

(In thousands)

Assets		2014	2013
Current assets:			
Cash and cash equivalents	$	6,928	14,018
Short-term investments		18,568	17,982
Patient accounts receivable, net of allowance for uncollectible accounts of $31,099 in 2014 and $32,763 in 2013		74,403	56,733
Other receivables		3,767	3,200
Inventories		6,947	6,397
Prepaid expenses		6,097	6,205
Total current assets		116,710	104,535
Assets limited or restricted as to use:			
Under bond indenture agreements – held by trustee		130,209	7,949
Interest in investments of charitable remainder trusts		2,006	1,734
Internally designated for capital improvements		43,966	38,361
Pledges receivable, net		1,847	—
		178,028	48,044
Land, buildings, and equipment, net		232,172	225,362
Long-term investments		124,705	107,214
Deferred finance charges, net		2,136	1,036
Investment in joint ventures and other assets		1,517	1,412
Goodwill		8,192	7,791
Intangible assets, net		3,023	2,700
Estimated insurance recoveries		7,137	6,020
Total assets	$	673,620	504,114

See accompanying notes to consolidated financial statements.

IX.
1120.130 Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

This section does not apply because all of the projects capital expenditures will be completely funded through internal sources.

IX.
Financial Viability Ratios

This section does not apply because all of the projects capital expenditures will be completely funded through internal sources. Therefore the applicant does not need to submit financial viability ratios.

X.
1120.140 Economic Feasibility

A. Reasonableness of Financing Arrangements

The notarized statement can be found on page 2 of this Attachment.

B. Conditions of Debt Financing

This section is not applicable because the project does not involve debt financing.

C. Reasonableness of Project and Related Costs

The required chart can be found on page 26 of this Application.

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

The projected direct annual operating costs for FY18 (first fiscal year at target utilization) for Cardiac Catheterization and the hospital are as follows:

Cardiac Catheterization
Operating expense per procedure (unit of service) for FY18 $2,826

Centegra Hospital – Huntley
Operating expense per patient day for FY18 $1,805

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

The projected annual capital costs for FY18 (first fiscal year at target utilization) for Cardiac Catheterization and the hospital are as follows:

Cardiac Catheterization
Capital costs per procedure (unit of service) for FY18 $162

Centegra Hospital – Huntley
Capital costs per patient day for FY18 $232

525 W. Jefferson
Second Floor
Springfield, Illinois 62761

Dear Mr. Constantino:

The undersigned, as authorized representatives of Centegra Hospital Huntley, Centegra Hospital – McHenry, Centegra Hospital – Woodstock and Centegra Health System, in accordance with 77 Ill. Adm. Code 1120.140.a)1 and the requirements of Section X.A. of the CON Application for Permit, hereby attest to the following:

That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System

SUBSCRIBED and SWORN to before me this 20 day of October 2014.

XI.

Safety Net Impact Statement

1. The project's material impact, if any, on essential safety net services in the community.

Health Safety Net Services have been defined as services provided to patients who are low-income and otherwise vulnerable, including those uninsured and covered by Medicaid. (Agency for Healthcare Research and Quality, Public Health Service, U.S. Department of Health and Human Services, "The Safety Net Monitoring Initiative," AHRQ Pub. No. 03-P011, August, 2003).

This CON application proposes to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley.

Centegra Hospital - Huntley is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties. There are 11 facilities in Planning Area HSA-08 that provide Cardiac Catheterization Category of Service. As reported in the 2013 annual hospital questionnaires, all of the facilities in Planning Area HSA-08 are operating above the target utilization of 400 procedures per year.

This project proposes to increase the accessibility to cardiac catheterization services for patients because Centegra Hospital – McHenry is the only facility providing Cardiac Catheterization Category of Service in McHenry County. Cardiac catheterization is available at four facilities in Kane County and six facilities in Lake County, the other counties making up Planning Area HSA-08.

The market area for this project is the same as the proposed service area for Centegra Hospital – Huntley. The market area consists of the following zip codes, all of which are located completey or primarily in Planning Area HSA-08

Primary Service Area		Secondary Service Area	
60142	Huntley	60098	Woodstock
60156	Lake in the Hills	60013	Cary
60014	Crystal Lake	60012	Crystal Lake
60102	Algonquin	60039	Crystal Lake
60152	Marengo	60010	Barrington
60140	Hampshire	60021	Fox River Grove
60110	Carpentersville		
60180	Union		
60118	Dundee		
60136	Gilberts		

There are residents of Planning Area 8 A-10 who are low-income and otherwise vulnerable, as documented by their residing in Medically Underserved Areas and/or Populations.

Medically Underserved Areas and Medically Underserved Populations are designated

by the federal government (Health Resources and Services Administration of the U.S. Department of Health and Human Services) based on the Index of Medical Underservice. Designated Medically Underserved Areas (MUAs) and Medically Underserved Populations (MUPs) are eligible for certification and funding under federal programs such as Community Health Center (CHC) grant funds, Federally Qualified Health Centers (FQHCs), and Rural Health Clinics (http://bhpr.hrsa.gov/shortage/muaguide.htm) (Health Resources and Services Administration, U.S. Department of Health and Human Services).

Within the proposed service area for this project there are four census tracts that have been designated by the Governor as having a federally-designated Medically Underserved Population, a designation that is made to document unusual local conditions and barriers to accessing personal health services.

This project will have a positive impact on essential safety net services in Planning Area HSA-08 for those patients requiring the Cardiac Catheterization Category of Service by establishing the category of service at Centegra Hospital – Huntley.

2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services

This project will not negatively impact other hospitals ability to cross-subsidize safety net series because it is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley to alleviate high utilization at Centegra Hospital-McHenry under the Multi-Institutional Variance criterion.

The applicant received referral letters from area Cardiologists documenting the number of cardiac catheterizations they anticipate performing at Centegra Hospital – Huntley. The procedures are documented patients that currently reside in Centegra Hospital – Huntley's service area and were treated at Centegra Hospital – McHenry.

As a result, this project should not have any impact on the ability of another provider or health care system to cross-subsidize safety services, but it is anticipated that it will enhance Centegra Health System's ability to cross- subsidize safety net services at all of its locations.

3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community

This item is not applicable because this project does not propose to discontinue any services or facilities.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act.

This project has four co-applicants:
Centegra Hospital – Huntley
Centegra Hospital – McHenry
Centegra Hospital – Woodstock
Centegra Health System

A notarized certification describing the amount of charity care provided in 2011 through 2013 by each of the hospitals that are members of Centegra Health System is found on Page 5 of this Attachment.

2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.

   A notarized certification describing the amount of care provided to Medicaid patients in 2011 through 2013 by each of the hospitals that are members of Centegra Health System is found on Page 6 of this Attachment.

3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

   A Safety Net Information Table per PA 96-0031 in the specified format must be provided as part of Attachment 40.

   The Table is found on page 7 for Centegra Hospital – McHenry, page 8 for Centegra Hospital – Woodstock and page 9 for Centegra Specialty Hospital – Woodstock, South Street. Centegra Hospital – Huntley is not yet operational.

   a. A copy of Centegra Health System's 2013 Report to the Community is appended to this Attachment starting on page 10.

   b. During FY2013, Centegra Health System provided more than $4,500,000 in community benefits, an increase from FY2012.

   c. Examples of relevant community benefits that are currently provided at Centegra Health System and will be provided at Centegra Hospital – Huntley are:
      Heart Disease Prevention, Screening & Education Activities
      Health Fair Screenings
      Patient Transportation
      Students – Cardiac Care
      Heart Failure Clinic-Student Development
      Cardiology Nutrition Consultations

   d. Centegra Health System was a core team member conducting the 2014 McHenry County Healthy Community Study, which is a collaborative

effort with the McHenry County Department of Health and in which more than 10 organizations are participating. Centegra has also participated in the prior studies.

e. Centegra Health System has been an active participant in the McHenry County Health Department's MAPP (Mobilizing for Action through Planning and Partnerships), an ongoing effort which is currently in its action phase: Centegra not only serves on the Core Team for MAPP, but also the Cardiovascular team and other teams.

WELL BEYOND EXPECTATION™

Annual Report FY2013

www.annualreport.centegra.org

ATTACHMENT-40, PAGE-10

Welcome

Dear Friends,

Thank you for joining us as we review Centegra Health System's fiscal year 2013. It was a remarkable year, one filled with great advances that show our dedication to excellence and to building a healthier future.

Each day our Associates and Physicians provided excellent personalized care to our patients and their families. I'm always amazed at the many facets of patient care. Every clinician has to have the right combination of compassion, persistence, intelligence and thoughtfulness. At Centegra, our health care team is unmatched.

We carefully develop services according to the health needs of the community. In 2013 Centegra Physician Care introduced a 24-hour hospitalist program. These physicians specialize in inpatient care at our health care facilities. Hospitalists see patients whose physicians do not provide inpatient care. They also provide care to patients who do not have a primary care physician. Our hospitalists are available at a moment's notice to support the rest of the health care team.

In 2013 our teams also finished the final planning phases of Centegra Hospital-Huntley, which will open in 2016. We have worked closely with nurses, Physicians and Associates to design a high tech hospital that will provide state of art clinical care in an atheistically pleasing environment.

The past year was a demanding and exciting time for Centegra Health System. We have witnessed continued growth and development in the provision of services to the people that live in our community.

We invite you to learn more about Centegra's advances and our focus on our community in this annual report to the community. Please join us in the future as we continue to provide high-tech, high-quality health and wellness services for the entire McHenry County area.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System

Community Benefits

Community Events 2013

As part of our mission to promote wellness for the greater McHenry County area, Centegra Health System planned, supported or participated in more than 320 events throughout the community in fiscal year 2013. Here are just a few examples:

Free blood pressure and diabetes screenings once every month during food distributions
Kiwanis Santa Run for Kids – December 2012
Chamber Memberships – 2013
Big Brothers Big Sisters Partnership – 2013
Corporate Sponsorship Hospice of Northeastern IL – 2013
Raue Center for the Arts Corporate Sponsorship – 2013
Corporate Sponsorship Pioneer Center – 2013
Health, Fitness & Nutrition Expo – January 2013
Centegra Weigh Less, Live More Expo – January 2013
8 Community Expos – January through May 2013
Centegra Health Strong Woman Event – February 2013
4 Community Parades – 2013
United Way Human Race – April 2013
Healthy Kids Day Sage YMCA – April 2013
Bob Blazier Run for the Arts – May 2013
March of Dimes March for Babies – May 2013
Sun City Feeling Great is Ageless Health Fair – May 2013
Girls on the Run – May 2013
American Cancer Society Relays for Life – June 2013
Wheeler's Children's Health and Safety Fair – June 2013
McHenry County Children's Health & Safety Fair – July 2013
Hearthstone Centegra Senior Fair – August 2013
Taste of Home – September 2013
Huntley Fall Fest – September 2013
Family Health Partnership Care 4 Breast Cancer Walk – October 2013
Algonquin/LITH Fall Expo – October 2013

Community Events – Highlights

Supported or sponsored more than 326 community events in FY13.
These events touched more than 241,194 individuals.
Conducted the Weigh Less, Live More Expo providing more than 577 free screenings and introducing the new Centegra Weight-Loss Institute.
Sold out Centegra Health Strong Woman Event, conducting 1,495 screenings and providing a Lunch and Learn segment that introduced 26 providers to more than 500 attendees.Planned the Hearthstone Senior Fair and conducted free screenings for 222 attendees.

Partnered with the Sun City Ageless Fair and conducted 615 free screenings.

Conducted the eighth Annual Health Care Career Fair at the Woodstock North High School. The fair featured a variety of clinical health care careers and encouraged McHenry County's eighth-grade students to experience a hands-on, simulated environment while teaching them about all aspects of health care careers. This event has attracted more than 9,400 participants over the last several years.

Community Service

Our Associates and physicians volunteer more than 75,000 hours of their time to the community each year.

Wellness

Baseline concussion screenings were provided to youth sporting groups and local high schools, with more than 2,200 baselines performed. With the high demand of post-injury screenings that came in following the baselines, the Centegra Concussion Clinic launched in June 2013 for post injury in conjunction with neuro-rehabilitation.

Del Webb launched well checks to be hosted on-site for all Del Webb residents.

The wellness department hosted the second Break Your Boundaries (BYB) weight-loss program to almost 800 participants. Competitors lost a total of 4,032 pounds, 3,189 inches in an eight-week program designed to address healthier lifestyles through exercise, healthy eating and behavior change.

In January 2013, 1,612 Centegra Associates and just more than 100 spouses completed their Heath Risk Assessment (HRA) screenings, the highest participation rates ever.

Accreditation and Quality Recognition

Centegra Gavers Breast Center was named to the National Accreditation Program for Breast Centers (NAPBC).

Centegra earned the United Healthcare Premium Designation Interventional Cardiac Care and Rhythm Management for interventional cardiac services.

Centegra was a recipient of the American College of Cardiology Foundation's National Cardiovascular Data Registry (NCDR) ACTION Registry – Get With the Guidelines (GWTG) Silver Performance Achievement Award for acute coronary syndrome patients.

Centegra was a recipient of the American Heart Association's Mission: Lifeline Bronze Quality Achievement Award.

Centegra was recognized by Blue Cross and Blue Shield of Illinois as one of the first hospitals in the nation to receive a Blue Distinction Center+ designation in the area of cardiac care.

Centegra successfully completed the Laboratory College of American Pathologist standards.

Centegra implemented the McKesson Paragon Hospital Information System for Electronic Medical Record (EMR) and achieved Healthcare Information Management and System Society (HIMSS) EMR Adoption Model (EMRAM) Stage 5 Level. This implementation replaced both our clinical and financial systems and included additional workstation and thin station rollouts, mobile clinical computing, remote access improvements and monitor integration.

Magnet

Centegra Health System's application for Magnet designation was accepted and the document was submitted to the American Nurses Credentialing Center (ANCC) April 1. The document was approved and three ANCC appraisers scheduled a three-day on-site visit. This visit was the final phase of Centegra's Journey to Magnet Excellence, which began more than three years ago. Fewer than 400 hospitals in the world have this distinct designation, which recognizes quality patient care, nursing excellence and innovations in professional nursing practice.

System Awards and Recognition

Centegra Physician Care was named to Modern Healthcare's Best Places to Work in Healthcare 2012 list. The Modern Healthcare Best Places to Work designation has been recognizing outstanding places of employment in the health care industry including health care providers, suppliers and payers since 2008. Centegra Physician Care was named 74th in the Top 100.

Again this year, McHenry County residents voted Centegra Health System and Centegra Health Bridge Fitness Centers as their choice for health and wellness. In June 2013, a special section honoring the community's choices for the "Best of Fox 2013 awards" was published in the Northwest Herald. Best Hospital category was eliminated. Below are the categories in which Centegra achieved awards:

- Best Health Club
- Best Home Healthcare Provider
- Best Personal Trainer
- Best Pilates
- Best Family Physician Office
- Best Pediatrician Office
- One of the Best Medical Clinics
- One of the Best Women's Health Care Centers
- One of the Best Yoga
- One of the Best Swim Lessons

Centegra Physician Care

History and Background

Centegra Hospital-McHenry and Centegra Hospital-Woodstock have a rich history in their communities, dating from 1914 and 1956.

Centegra Physician Care (CPC), formerly Centegra Primary Care, is an Illinois not-for-profit corporation and the leading healthcare provider in the greater McHenry County area. We are known for our high quality, state-of-the-art medical services and our genuine, compassionate patient care.

Our mission is to serve our community by providing the highest quality care in an environment of outstanding service, access and convenience. The focus of our practice is on preventative care, education and patient involvement.

Community Involvement

As the only clinic of its kind in our county, Centegra Physician Care Associates and the Family Health Partnership Clinic employees have provided screenings, physicals, chronic disease management and sick care to people in need for the past 15 years. In FY2013, our doctors volunteered 376 hours serving more than 600 people at the clinic to provide quality health care to the residents of McHenry County.

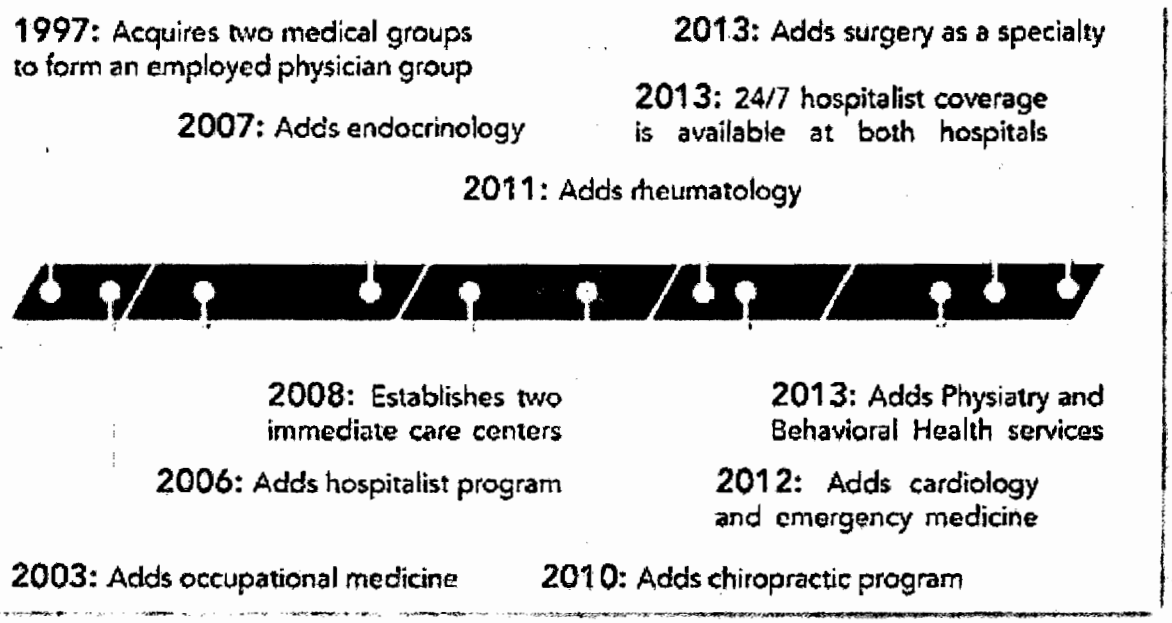
Every one of our Centegra locations is committed to giving the highest level of service to all patients, regardless of their ability to pay.

Our providers also volunteer their time to give health-related lectures and presentations for people of our region. Providers speak at nursing homes, colleges, non-profit organizations, fitness centers, high schools and senior living communities to help people understand topics such as heart disease, cancer, chronic illnesses, orthopedics, parenting and wellness. In FY2013, 625 people received education at 33 lectures.

Retention and Growth

Centegra Physician Care doctors understand the importance of CPC's role in the community and commit themselves and their careers to our mission. About 30 percent of our doctors have five or more years with CPC and 15 percent have 10 or more years of service. Our retention rates have improved from 83 percent to 88 percent.

In terms of headcount, Centegra Physician Care has grown 291 percent since 2006.



Expansion of Specialties

As Centegra Health System continues to grow, so do our specialty capabilities. In FY2011, Centegra offered chiropractic, endocrinology, family practice, hospitalist, immediate care, internal medicine, OB/GYN, occupational medicine, pediatrics and rheumatology services. Later, in FY2012, we developed cardiology, emergency medicine and neurology. Most recently, we began offering behavioral health and physiatry.

Presenting "What's Right in Healthcare."

In 2013, The Studer Group selected Centegra Physician Care as one of 25 organizations to present at "What's Right in Healthcare"in Atlanta, Ga. This is the largest educational institute offered by The Studer Group and is attended by health care organizations from around the world.

Centegra Physician Care was selected due to consistency in outstanding patient perception of quality care and service.

New in 2013

Andrea's Story (Family Practice)

Andrea"What really separates my Centegra primary care physician from others is her sincere interest in me and my family. She always takes her time and explains things to me. My doctor shares her life experiences and relates them to mine; it makes me a lot more comfortable knowing she's a person just like me.

Whenever I call for an appointment the schedulers always take such good care to get me a convenient appointment. When I show up at my appointment my doctor is very respectful of my time and she's always on time.

All the staff at Centegra are incredibly compassionate. When I delivered both of my daughters at Centegra, the nurses were attentive and reassuring at a time when I was very nervous. Even when my daughters had their tonsils removed at Centegra Hospital-McHenry the doctors and nurses were so warm and genuine, they really helped to calm my daughters and me.

What also makes Centegra such a perfect fit for my family is the convenience of their locations throughout all of McHenry County. Centegra Physician Care, immediate cares, hospitals with emergency departments are all close to my home. The staff who work at Centegra truly care about keeping me and my family healthy.

I was sick for three and a half years before I finally went to the doctor. By the end of March, I could barely take care of myself because I was so exhausted all the time. I did a lot of research and thought I had a hormonal imbalance based on my symptoms, so I started looking for a gynecologist. I had a lot of trouble finding someone who understood what I wanted, until my boyfriend's mom (a nurse at Centegra Hospital-Woodstock) recommended Dr. Favia.

I was able to get an appointment with Dr. Favia right away and she took great care of me. On March 29, she did some blood tests and sent me to a hematologist, Dr. Zahir, because the blood tests showed that I had anemia and low platelets. I saw Dr. Zahir on April 1 and he recommended a rheumatologist, Dr. Malik, because he thought I may also have lupus. I saw Dr. Malik on April 15 and started treatment on May 1. Within three days, I started feeling better.

Dr. Malik is great. He is so in tune with what I say; he listens really well. He was able to piece things together and help me quickly. He is so wonderful that I took my mom to him. She was diagnosed with lupus a few years ago but Dr. Malik found out she has fibromyalgia instead. I couldn't ask for a better doctor."

Michelle's Story (Rheumatology)

Michelle"My hair was falling out, my joints constantly ached and I was so exhausted. This went on for three years just not feeling well and not knowing why. I had almost completely withdrawn socially because of my extreme exhaustion. It was affecting my personal and professional relationships. Finally, my mother persuaded me to go get some blood work done. The tests were abnormal and the results finally led me to Dr. Malick. He quickly diagnosed me with lupus disease and started me on medication. Within days I could feel the medication working and my energy level returning to normal. Eventually I started feeling so much better, I returned to many of my activities and socializing again. I am so grateful to Dr. Malick. I finally had some answers to why I was feeling the way I did. My doctor has recommended exercise and a healthy diet as a part of my ongoing recovery. I exercise, I eat right and I know what I need to do now to stay well, thanks to my Centegra doctor."

Janis' Story (WellBridge)

Janis"After my bariatric surgery, Dr. Heydari referred me to the WellBridge program. I needed to improve my health because of my diabetes, my high blood pressure and my high cholesterol. My doctor wanted me to have the resources to keep improving my health so I joined Centegra Health Bridge Fitness Center. I never would have imagined in my wildest dreams working out could be so much fun. I absolutely love my aquatics classes. I love my teachers and I'm there three to four times a week. They really make it a lot of fun. I've seen significant improvements. For example, I've lost 111 pounds. I was on five different medications before my surgery and now I'm down to one. My blood pressure is in the normal range now, too. The whole program gave me the tools and resources I needed to get better and stay well. I'm so grateful to my doctor for taking such great care of me."

Kerri's Story (Centegra Weight-Loss Institute)

Kerri"I was in total shock at how heavy I had gotten and I wanted to do something about it, so I joined the Optifast program at Centegra. I've lost 40 pounds and two pant sizes in the first 11 weeks! Optifast takes the focus off food by providing me healthy meal replacements. There's medical oversight provided, which gives me peace of mind. What really makes this program so much better than any other program is the amount of support you receive. I couldn't do it without the support of the nutritionist, behaviorist, fitness trainers and my support group. I'm discovering why I had poor eating habits, learning tools to cope and learning how to eat right while exercising. I'm still working toward my final goal but now I know I can do it."

Tiffany's Story (Medical Nutrition Therapy)

Tiffany"I was shopping for bigger sized clothing. My energy level was way down and I'm a busy wife and full-time mom of a 2-year-old and a 5-year-old.

At a checkup for a thyroid condition, my endocrinologist, Dr. Achal Ahmed, voiced what what I had been thinking.

She told me I really had to lose weight or one day we'd be talking about diabetes. That really scared me. I told Dr. Ahmed, 'Give me six months to see what I can do. I was already a member of Centegra Health Bridge Fitness Center, so I scheduled a fitness assessment with a personal trainer. Spending just one hour at the gym most days of the week became a priority. I also worked closely with one of Centegra's registered dietitians. I learned to cook and shop differently.

After just six months, I've dropped 42 pounds and lost 8½ inches from my waist. I really needed the one-on-one help from a personal trainer, nutrition expert and the encouragement from my doctor. Now my glucose, cholesterol and thyroid levels are all in the normal range and the doctor said I reversed my risk of developing diabetes."

Awards

Centegra Physician Care is committed to providing the highest level of health care to our patients. While awards are not why we do our jobs, we are honored to have received the following accolades:

Crain's Chicago Business Top 25 Physician Groups
Ranked No. 20 in the Chicago Metropolitan area in 2013

Modern Healthcare
100 Best Places to Work in Healthcare in 2013

Northwest Herald's Readers' Choice Awards 2013
Best Family Physician Office in McHenry County
Best Pediatric Office in McHenry County
One of The Best Medical Clinics in McHenry County

Patient Satisfaction

Clinician & Group Consumer Assessment of Health Care Providers & Systems

The Clinician and Group Consumer Assessment of Health Care Providers and Systems surveys sent to patients found a 90 percent satisfaction trend in 2013

Studer Group Lecture: Best Practices
Selected by the Studer Group in 2013 to speak at a national conference to share best practices (based on scores to the right, the sustainability indicates that the best practices are consistently hardwired).

Q: Would you recommend this provider's office? 91 percent of our patients said YES!*
*Average taken over 2013 fiscal year

XII.
Charity Care Information

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three audited fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.

Centegra Health System, a co-applicant for this project, is the sole corporate member of Centegra Hospital – McHenry, Centegra Hospital – Woodstock, Centegra Specialty Hospital – Woodstock, South Street and Centegra Hospital - Huntley. Centegra Hospital – Huntley is not operational and therefore does not have Charity Care information available.

The charts presented below document the amount of charity care for the last three audited fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue for each of these hospitals.

Centegra Hospital – McHenry CHARITY CARE			
	FY11	**FY12**	**FY13**
Net Patient Revenue	$246,545,773	$248,781,809	$240,896,275
Amount of Charity Care (charges)	$16,653,704	$16,836,463	$21,094,842
Cost of Charity Care	$4,962,804	$4,933,142	$6,222,978
Ratio of Charity Care Cost to Net Patient Revenue	2.0%	2.0%	2.6%

Centegra Hospital – Woodstock CHARITY CARE			
	FY11	**FY12**	**FY13**
Net Patient Revenue	$138,015,277	$140,197,892	$136,566,603
Amount of Charity Care (charges)	$9,859,831	$9,986,495	$10,634,288
Cost of Charity Care	$3,312,903	$3,245,611	$3,456,144
Ratio of Charity Care Cost to Net Patient Revenue	2.4%	2.3%	2.5%

Centegra Specialty Hospital – Woodstock, South Street CHARITY CARE			
	FY11	**FY12**	**FY13**
Net Patient Revenue	$14,824,286	$15,033,470	$12,508,547
Amount of Charity Care (charges)	$2,163,539	$2,684,737	$2,915,161
Cost of Charity Care	$726,949	$872,540	$947,427
Ratio of Charity Care Cost to Net Patient Revenue	4.9%	5.8%	7.6%

2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.

   The reporting provided on the charts above is for each individual facility.

3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

   This section does not apply.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

Dear Ms. Avery:

I am a practicing Cardiologist who is a member of the medical staffs at Centegra Hospital – McHenry and Centegra Hospital – Woodstock and plan to be on the medical staff at Centegra Hospital – Huntley when it becomes operational in 2016.

During the 12-month period of October 2013 through September 2014, I performed 301 Cardiac Catheterization procedures at Centegra Hospital – McHenry. 108 of the Cardiac Catheterization procedures were for patients residing in the proposed service area for Centegra Hospital – Huntley. These procedures are documented on Appendix A to this letter.

After the CON permit is granted and Centegra Hospital-Huntley's Cardiac Catheterization Lab becomes operational, I estimate that I will treat 108 patients at the new facility who reside in the Centegra Hospital - Huntley proposed service area.

I verify by my signature below that I have not committed patient referrals to support another pending CON application or an approved CON project for the Cardiac Catheterization Category of Service.

Thank you,

Douglas Tomasian, MD
Centegra Physician Care

Rick Mace
CEO
Adventist Bolingbrook Hospital
500 Remington Blvd
Bolingbrook, IL 60440

Dear Rick Mace,

This letter is to notify you that Centegra Health System will be seeking a Certificate of Need (CON) permit to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

If you have any questions relating to this project, please do not hesitate to contact me.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System

October 17, 2014

Dominica Tallarico
President
Advocate Condell Medical Center
801 South Milwaukee Avenue
Libertyville, IL 60048

Dear Dominica Tallarico,

This letter is to notify you that Centegra Health System will be seeking a Certificate of Need (CON) permit to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

If you have any questions relating to this project, please do not hesitate to contact me.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System

Chicago, IL 60617

Dear Michelle Gaskill,

This letter is to notify you that Centegra Health System will be seeking a Certificate of Need (CON) permit to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

If you have any questions relating to this project, please do not hesitate to contact me.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

If you have any questions relating to this project, please do not hesitate to contact me.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System

October 17, 2014

Gerald P. Gallagher
Chief Operating Officer
Evanston Hospital
2650 Ridge Avenue
Evanston, IL 60201

Dear Gerald P. Gallagher,

This letter is to notify you that Centegra Health System will be seeking a Certificate of Need (CON) permit to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Chief Operating Officer
John H. Stroger Hospital of Cook County
1901 West Harrison Street - Suite 5650
Chicago, IL 60612-3785

Dear Peter Daniels,

This letter is to notify you that Centegra Health System will be seeking a Certificate of Need (CON) permit to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

If you have any questions relating to this project, please do not hesitate to contact me.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor

Terrence Moisan, M.D.
Interim CEO
Palos Community Hospital
12251 South 80th Avenue
Palos Heights, IL 60463

Dear Terrence Moisan, M.D.,

This letter is to notify you that Centegra Health System will be seeking a Certificate of Need (CON) permit to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

If you have any questions relating to this project, please do not hesitate to contact me.

Sincerely,

Michael S. Eesley
Chief Executive Officer

Roberta Luskin-Hawk
CEO
Presence Saint Joseph Hospital Chicago
2900 North Lake Shore Drive
Chicago, IL 60657

Dear Roberta Luskin-Hawk,

This letter is to notify you that Centegra Health System will be seeking a Certificate of Need (CON) permit to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

If you have any questions relating to this project, please do not hesitate to contact me.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System

Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

If you have any questions relating to this project, please do not hesitate to contact me.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System

Paul Pawlak
President and CEO
Silver Cross Hospital
1900 Silver Cross Boulevard
New Lenox, IL 60451

Dear Paul Pawlak,

This letter is to notify you that Centegra Health System will be seeking a Certificate of Need (CON) permit to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

Sharon O'Keefe
President
University Of Chicago Medical Center
5841 South Maryland
Chicago, IL 60637

Dear Sharon O'Keefe,

This letter is to notify you that Centegra Health System will be seeking a Certificate of Need (CON) permit to establish the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley, located at 10400 Haligus Road in Huntley, IL. This location is in Hospital Planning Area A-10 for acute care, and the Planning Area for Cardiac Catheterization Services is HSA-08, which consists of Kane, Lake, and McHenry Counties.

Centegra Hospital – Huntley was granted a CON permit by the Illinois Health Facilities and Services Review Board on July 24, 2012 and is currently under construction. It is anticipated to be operational in the fall of 2016.

Centegra Health System currently provides the Cardiac Catheterization Category of Service at Northern Illinois Medical Center d/b/a Centegra Hospital – McHenry, which is located in the same hospital planning area and the same planning area for Cardiac Catheterization Services as Centegra Hospital – Huntley.

Both Centegra Hospital – Huntley and Centegra Hospital – McHenry are owned and operated by Centegra Health System.

Centegra Hospital – McHenry is experiencing high utilization in the Cardiac Catheterization Category of Service. During the most recent 12-month period (October 2013 – September 2014), Centegra Hospital – McHenry has experienced more than 750 procedures per lab in each of its three labs. Due to the high utilization in the catheterization labs at Centegra Hospital – McHenry, and to better serve the patients in the Planning Area HSA-08, Centegra Health System is seeking to establish one cardiac catheterization lab at Centegra Hospital – Huntley utilizing the multi-institutional variance criterion.

The purpose of establishing the Cardiac Catheterization Category of Service at Centegra Hospital – Huntley is to alleviate the excessively high demands on Centegra Hospital – McHenry's Cardiac Catheterization Service.

This project is not expected to have any impact on the Cardiac Catheterization services of any other hospitals since the patients undergoing cardiac catheterization at Centegra Hospital – Huntley are expected to be patients who currently undergo cardiac catheterization at Centegra Hospital – McHenry and who reside in Centegra Hospital – Huntley's service area.

We are sending you this letter in accordance with the Review Board's requirement that we contact all facilities that currently provide the Cardiac Catheterization Service and are located within 90 minutes' travel time of Centegra Hospital – Huntley in order to determine the impact that our project will have on the Cardiac Catheterization volume at your hospital.

Please send responses to me at the above address and to Ms. Courtney Avery at the address shown below so they may be included in this project's file.

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

If you have any questions relating to this project, please do not hesitate to contact me.

Sincerely,

Michael S. Eesley
Chief Executive Officer
Centegra Health System
