Re: Project No. 14-053, Proposed Cardiac Catheterization Services, Centegra Hospital-Huntley

Ms Avery:

The McHenry County Economic Development Corporation (MCEDC) is the regional economic development entity with a mission to promote and enhance the economic health of McHenry County through the retention, expansion and attraction of commerce and industry. We do all this to be conducive to an optimal quality of life for area citizens.

Encompassed in quality of life is access to quality healthcare which Centegra Health System has been providing to county residents for 1914. In 2011, the MCEDC supported the expansion of Centegra Health System's footprint with the new hospital in Huntley. The proposed Catheterization Services at the new hospital in Huntley will further enhance the quality and access for county and regional residents.

Please consider approval of this project so that our region can have increased access to heart services.

Best Regards

Pam Cumpata

Re: Project No. 14-053, Proposed Cardiac Catheterization Services, Centegra Hospital-Huntley

Dear Ms. Avery:

Algonquin has needed a hospital facility for many years, and the building of the Centegra campus in Huntley will be a benefit to all of our residents.

I recently had heart surgery and had to go to Good Shepherd Hospital in Barrington, Illinois, which is a 40-minute drive from my home here in Algonquin. While the care was exceptional, it would have been much better for my family and me to have been able to go the Centegra facility, which is five minutes away. As with any community of our size, we have middle-aged and senior residents who would benefit from the catheterization laboratory that is proposed for Huntley.

I fully support this addition to the Huntley Centegra hospital and hope you consider it

Sincerely,

John C. Schmitt
Village President

RE: Project No. 14-053, Proposed Cardiac Catheterization Services, Centegra Hospital-Huntley

Dear Ms. Avery:

As Village President of Lake in the Hills, I strongly support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley.

Lake in the Hills is the third largest municipality in McHenry County and is a neighboring community to Huntley. A Cardiac Catheterization Laboratory in this precise location would give Lake in the Hills residents closer access to state-of-the-art cardiac care and the most advanced heart treatments and interventions.

We are grateful for the role that Centegra Health System currently plays in our community. We urge you to allow the system to play an even bigger role in the years to come. On behalf of the Village of Lake in the Hills and its residents, I implore you to approve the Cardiac Catheterizations Laboratory at Centegra Hospital-Huntley, Project No. 14-053.

Sincerely,

Paul Mulcahy
Village President

Re: Project No. 14-053, Proposed Cardiac Catheterization Services, Centegra Hospital-Huntley

Dear Ms. Avery,

As Executive Director, I am writing on behalf of the Huntley Area Chamber of Commerce & Industry, to express support for Project No. 14-053, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. The new Centegra hospital and proposed Cardiac Catheterization Laboratory are a vital and integral part of the area's business environment and our quality of life for the community.

Our quality of life is directly improved by having local access to a new Cardiac Catheterization Laboratory. Within the Village of Huntley, we have a terrific 5,000+ home community, Sun City, for active adults 55+ years old. It is imperative for Huntley, with its concentrated senior population, and increased potential for cardiac care to have closer access to the most advanced heart treatments and interventions. This new project will provide state-of-the-art cardiac care and ensure all area residents have the opportunity for optimal wellness.

In addition to our residents having access to superior care, this proposed project, will support the continued business growth and retention in our area. The project will attract additional skilled, high-quality staffing and interdependent business support systems.

We fully support and respectfully request, the Illinois Health Facilities and Services Review Board approve this project so the entire community has closer access to a new state of the art Cardiac Catheterization Laboratory when the new Centegra Hospital-Huntley opens.

Sincerely,

Sunday Graham

Re: Project No. 14-053, Proposed Cardiac Catheterization Services, Centegra Hospital – Huntley

Dear Ms. Avery:

On behalf of the Village of Lakewood, we would like to express our support for the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley, Project No. 14-053. The Village of Lakewood is supporting the proposal of Catheterization Services to provide state-of-the-art cardiac care so that our residents will have closer access to the most advanced heart treatments and interventions.

We are asking that the Review Board approve this project so that the surrounding community has increased access to heart services when Centegra Hospital-Huntley opens. We are confident this type of facility would be beneficial to the residents of Lakewood.

Very truly yours,

Catherine Peterson

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

As a cardiovascular and thoracic surgeon with Cardiac Surgery Associates, S.C., I fully support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe the people of the Huntley region deserve rapid access to sophisticated heart care close to their homes.

When I educate my patients about cardiovascular disease I often say "minutes matter" in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. In the communities it serves, Centegra works closely with first responders to ensure heart care can begin as soon as they arrive at the scene of a cardiac emergency. Centegra streamlines care in its accredited Chest Pain Centers and Emergency Departments to address patients' needs and, when needed, to treat them in the busy existing Catheterization Laboratories at Centegra Hospital-McHenry. There, exceptional teams and highly skilled physicians perform life-saving procedures to reopen arteries. When arteries are too blocked to be treated in the Cath Lab or when patients need more extensive intervention, I perform open-heart surgery at Centegra Hospital-McHenry.

Cardiac Surgery Associates collaborates with Centegra Health System because we share a commitment to providing local access to heart care where patients can be supported by family and friends. We eliminate a patient's need to travel outside of his or her community for advanced heart treatment. Centegra's proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley will serve patients closer to their homes. I urge you to approve Project No. 14-053.

Sincerely,

Thomas J. Hinkamp, MD, FACS

Re: Project No. 14-053

I would like to express my support for the proposed Cardiac Catheterization Laboratory at Centegra Hospital in Huntley. Centegra plays a vital role in our community both medically and philanthropically and is an organization that sincerely wants to provide total health care for the communities it serves. I believe having access to state of the art medical technology like this is essential In a growing and aging population such as ours and can only provide a better quality of life for everyone concerned. I would respectfully ask the board to approve this project in order to increase the availability of these essential services.

Sincerely,

Scott D. Lyngaas
President

Dear Ms. Avery,

I am a provider with Centegra Physician Care and I support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my patients in the Huntley region deserve rapid access to sophisticated heart care close to their homes.

Minutes matter in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. Patients also have better outcomes when they receive care closer to their homes. Just as Centegra Physician Care provides patient care in communities where our services are most needed, I believe Centegra Health System should now provide Cardiac Catheterizations near patients who do not currently have nearby access to this level of care.

Please approve Centegra Health System's application for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Thank you.

Sincerely,

Kelly Bauman, LMFT

Re: Project No. 14-053, Proposed Cardiac Catheterization Services, Centegra Hospital-Huntley

Dear Ms. Avery,

I am a cardiologist with Centegra Physician Care and I support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe the people of the Huntley region deserve rapid access to sophisticated heart care close to their homes.

When we educate our community members about cardiovascular disease we often say "minutes matter" in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. In the communities we serve, Centegra works closely with first responders to ensure heart care can begin as soon as they arrive at the scene of a cardiac emergency. We streamline care in our accredited Chest Pain Centers and Emergency Departments to address our patients' needs and, when needed, to treat them in our busy existing Catheterization Laboratories at Centegra Hospital-McHenry. There, we work with a highly skilled team to perform state-of-the-art heart procedures and set our patients on the road to recovery.

Please approve Centegra Health System's application for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Your approval will alleviate high utilization at our Catheterization Laboratories at Centegra Hospital-McHenry and serve our patients closer to their homes in the Huntley region.

Sincerely,

B Akrami, DO

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am a provider with Centegra Physician Care and I support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my patients in the Huntley region deserve rapid access to sophisticated heart care close to their homes.

Minutes matter in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. Patients also have better outcomes when they receive care closer to their homes. Just as Centegra Physician Care provides patient care in communities where our services are most needed, I believe Centegra Health System should now provide Cardiac Catheterizations near patients who do not currently have nearby access to this level of care.

Please approve Centegra Health System's application for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Thank you.

Sincerely,

Centegra Physician Care

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am a provider with Centegra Physician Care and I support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my patients in the Huntley region deserve rapid access to sophisticated heart care close to their homes.

Minutes matter in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. Patients also have better outcomes when they receive care closer to their homes. Just as Centegra Physician Care provides patient care in communities where our services are most needed, I believe Centegra Health System should now provide Cardiac Catheterizations near patients who do not currently have nearby access to this level of care.

Please approve Centegra Health System's application for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Thank you.

Sincerely,

Jim Ferguson

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am a provider with Centegra Physician Care and I support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my patients in the Huntley region deserve rapid access to sophisticated heart care close to their homes.

Minutes matter in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. Patients also have better outcomes when they receive care closer to their homes. Just as Centegra Physician Care provides patient care in communities where our services are most needed, I believe Centegra Health System should now provide Cardiac Catheterizations near patients who do not currently have nearby access to this level of care.

Please approve Centegra Health System's application for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Thank you.

Sincerely,

Fazal Khan, MD

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am a provider with Centegra Physician Care and I support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my patients in the Huntley region deserve rapid access to sophisticated heart care close to their homes.

Minutes matter in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. Patients also have better outcomes when they receive care closer to their homes. Just as Centegra Physician Care provides patient care in communities where our services are most needed, I believe Centegra Health System should now provide Cardiac Catheterizations near patients who do not currently have nearby access to this level of care.

Please approve Centegra Health System's application for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Thank you.

Sincerely,

Pasquale Bernardi, MD

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am a provider with Centegra Physician Care and I support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my patients in the Huntley region deserve rapid access to sophisticated heart care close to their homes.

Minutes matter in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. Patients also have better outcomes when they receive care closer to their homes. Just as Centegra Physician Care provides patient care in communities where our services are most needed, I believe Centegra Health System should now provide Cardiac Catheterizations near patients who do not currently have nearby access to this level of care.

Please approve Centegra Health System's application for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Thank you.

Sincerely,

Centegra Physician Care

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am a provider with Centegra Physician Care and I support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my patients in the Huntley region deserve rapid access to sophisticated heart care close to their homes.

Minutes matter in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. Patients also have better outcomes when they receive care closer to their homes. Just as Centegra Physician Care provides patient care in communities where our services are most needed, I believe Centegra Health System should now provide Cardiac Catheterizations near patients who do not currently have nearby access to this level of care.

Please approve Centegra Health System's application for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Thank you.

Sincerely,

Piush Patel, MD

Re: Project No. 14-053, Proposed Cardiac Catheterization Services, Centegra Hospital-Huntley

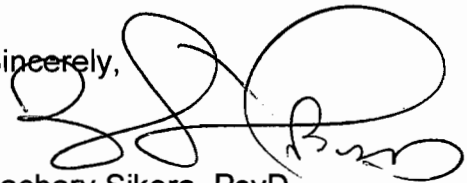
Dear Ms. Avery,

I am a provider with Centegra Physician Care and I support the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my patients in the Huntley region deserve rapid access to sophisticated heart care close to their homes.

Minutes matter in a heart attack. The faster a patient receives cardiac intervention, the more likely he or she is to survive. Patients also have better outcomes when they receive care closer to their homes. Just as Centegra Physician Care provides patient care in communities where our services are most needed, I believe Centegra Health System should now provide Cardiac Catheterizations near patients who do not currently have nearby access to this level of care.

Please approve Centegra Health System's application for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Thank you.

Sincerely,



12/18/14

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Re: Project No. 14-053, Proposed Cardiac Catheterization Services,
Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,

Centegra Hospital-Huntley

Dear Ms. Avery,

I am writing to express my full support of the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Centegra Health System proposed the service in Project No. 14-053 and I believe my family, friends and neighbors deserve fast access to cardiac services close to our homes.

Centegra Health System has demonstrated its commitment to our community for decades. In the past 10 years it has brought much-needed health care services to Centegra Health Campus Huntley. Now, the proposed Cardiac Catheterization Laboratory at Centegra Hospital-Huntley would eliminate the need to travel outside our community for the advanced heart services Centegra provides.

I strongly urge the board to approve the application by Centegra Health System for a new Cardiac Catheterization Laboratory at Centegra Hospital-Huntley. Please support my community's need for improved heart care.

Sincerely,
