HEALTH FACILITIES &
SERVICES REVIEW BOARD

Ms. Olson,

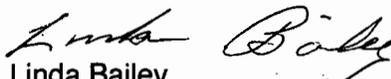

I was asked to indicate to you that I would likely use a Dialysis Center that has been planned on Wise Road in Schaumburg, Illinois.

If location makes my decision, then I could not ask for a better location. It would be very close to my home.

However, I feel the staff at the Elk Grove location are skilled and friendly. I am very comfortable working with them. They work hard to make a not fun activity comfortable. If the new staff did not provide the same supportive environment, I would have trouble not asking to return to Elk Grove. The staff is important to me.

I have a problem with the air conditioning system at the Elk Grove facility. I have always been sensitive to cold air conditioned air. The air blasting on the top of my head has caused me bronchitis to act up. I have done all that I can do to protect myself including wearing a hat and a blanket on the top of my head. I would hope the air conditioning is less direct at the Schaumburg facility.

I would be glad to discuss this with you.
