RE: **Request for Emergency Application**  
Health Facilities Planning Act  
PROJECT: 16-035 Fresenius Medical Care Evergreen Park, Evergreen Park  
APPLICANTS: Fresenius Medical Care Holdings, Inc.  
Fresenius Medical Care Chicagoland, LLC

Dear Ms. Wright:

On July 7, 2016, the Illinois Health Facilities and Services Review Board (State Board) received a request for emergency classification for the above-captioned application. The application proposed the following project:

The applicants propose to discontinue its existing 30-station ESRD facility located at 9730 South Western Avenue, Evergreen Park, and establish a 30-station replacement facility in 16,500 GSF of leased space, located at 8901 South Kedzie Avenue, Evergreen Park. Project cost: \$9,024,370.

This letter is to notify you that your request for an emergency application has been denied. The application does not fit the State Board's definition of "emergency" because an issue with the parking lot does not rise to the level of emergency contemplated by the Health Facilities Planning Act and Administrative Code. "Emergency Projects" means projects that are *emergent in nature and must be undertaken immediately to prevent or correct structural deficiencies or hazardous conditions that may harm or injure persons using the facility, as defined at 77 Ill. Adm. Code 1110.40(a). [20 ILCS 3960/12(9)]*

Should you have any questions, please contact Mike Constantino of George Roate at (217) 782-3516.

Sincerely,

Kathy Olson, Board Chair  
Illinois Health Facilities and Services Review Board
