**RE: Addition of Dialysis Stations #009-11 Bio Medical Application of Illinois d/b/a  
FMNCA Dialysis Services Burbank**

Dear Ms. Wright:

On April 26, 2011 the Chairman of the Illinois Health Facilities and Services Review Board approved an exemption from permit for the addition of 4 end stage renal dialysis ("ESRD") stations to be located at 4811 W. 77<sup>th</sup> Street, Burbank, Illinois. This brings the total number of stations for this facility to 26 stations. There will be no change in the operating entity or owner of the site. The cost of the project is \$102,700. The anticipated date of completion is April 1, 2012.

The approval was based upon the application's compliance with applicable provisions of 77 IAC 1130.544. You are reminded that this exemption is only valid for 12 months from the date of approval and is not transferable or assignable. This exemption must be completed within the 12-month period. To demonstrate completion of this transaction, the exemption holder must provide the State Agency with a final cost report. Failure to provide the required final cost report shall subject the exemption holder to the sanctions provided under Section 14 of the Illinois Health Facilities Planning Act.

The State Board's approval does not exempt the transaction from any other regulatory, certification or licensure requirements that may be applicable.

Should you have any questions, please contact our office at (217) 782-3516 and ask to speak to a staff person about post permit requirements.

Sincerely,

Courtney Avery, Administrator  
Illinois Health Facilities and Services Review Board

cc: Dale Galassie, Chairman
