

Patient Consent Preferences & Data Security Work Group

Illinois Patient Consent Management Workshop
Wednesday, June 26th

Co-Chairs

Peter Eckart, Director of Health Information Technology, Illinois Public Health Institute

Harry Rhodes, Director HIM Practice Excellence, American Health Information
Management Association

Ivan Handler, Chief Technology Officer, ILHIE

John Lekich, Project Manager, ILHIE

Agenda

- **Directive**
- **Deliverables**
- **Major Activities**
- **Adoption Timeline**
- **Stakeholder Role**
- **1st Meeting Agenda**

Define and demonstrate:

- ILHIE capabilities and interaction with health care service provider sites
- Demonstrate approached to protecting patient data privacy

Work Group Directive #2

- Enumerate specific data security concerns from specific patient consent preference scenarios.
- Produce recommendations for the Authority

Deliverables

- ❑ Documentation of the current capabilities of the ILHIE and how these capabilities interact with medical practices, as well as other entities.
- ❑ A summary of the current state of segmenting records.
- ❑ A list of patient privacy concerns with a representative sample of associated scenarios.
- ❑ A list of how the above interact with ILHIE.
- ❑ Recommendations for addressing the abovementioned items. Recommendations to be prioritized according to scenario, population impact, benefits and feasibility.

Major Activities

- Granular capability assessment
- Informative EMR products update
- Discuss how meaningful use impacts privacy and medical records generally
- Review SAMHSA demo and assessment of SAMHSA strategic direction regarding record/data segmentation
- Review SHARP's prototype
- Identify specific patient consent preference scenarios
- Map elements of identified scenarios to elements of electronic exchange
- Develop recommendations to the ILHIE Authority Board regarding statutory requirement for annual review of the technology to support record segmentation; prioritize according to population impact and technical feasibility

Adoption Timeline

**Sept/Nov
2013 –
Progress
updates at
Authority
Board
meetings**

**Q2 2014 –
Final
approval by
Authority
Board**

**Q1 2014 –
Preliminary
recommendations
to the Authority
Board**

**June 2014 – Proposed
annual technology
review of feasible
technical capabilities**

AND

Monthly Meetings

Stakeholder Roles

- Identify stakeholder concerns regarding patient consent preferences and how these concerns are impacted by electronic exchange through an HIE.

1st Meeting Agenda

- Co-Chair Introductions
- Membership/Contact List Formation
- Distribution/Explanation of Handouts
- Assignments/Timeline Goals
