Attached to this meeting notice is a deck of slides designed to set the stage for the conversation, including the requirements created by the General Assembly when it passed SB 1652. It also identifies questions that should be answered in order to include a specific and effective program in the 2013 Procurement Plan to be filed late this summer. In the first meeting we would like to ensure that participants are all fully informed of the necessary criteria for the program and to start the discussion. In a second meeting participants will be welcome to present suggestions for how to deal with open items. A third meeting, if necessary, will serve as a summary meeting. The latter two meetings are not yet scheduled.

Please indicate your attendance plans by e-mailing to [arlene.juracek@illinois.gov](mailto:arlene.juracek@illinois.gov).
