

**COMMENTS OF
SARGAS, INC.
ON THE ILLINOIS POWER
AGENCY'S
DRAFT 2016 ELECTRICITY PROCUREMENT
PLAN**

Sargas, Inc. (“Sargas”) submits these comments on the Illinois Power Agency’s (“IPA”) Draft 2016 Electricity Procurement Plan (“Draft Plan”) that has been posted on the IPA’s website pursuant to Section 16-111.5(d)(2) of the Illinois Public Utilities Act (“PUA”) (220 ILCS 5/16-111.5(d)(2)).

Sargas notes the IPA draft’s comment at 7.6.2 that Sargas continues its interest in seeing clean coal procurement be part of the IPA’s activity, and confirms that Sargas will provide detailed comment to the final plan, which comments will incorporate those comments Sargas made in connection with the 2015 procurement draft and plan – comments that include the fundamental arguments in support of a required company- and technology- neutral procurement process to fulfill the clear legislative requirements under which the IPA is to do such procurement.

Sargas anticipates further comments that will pertain to the state and effect of any new or pending legislation at the time of the final procurement submission.

Sargas looks forward to receipt and review of the final procurement plan, and to working with the IPA and other pertinent state agencies to facilitate the development of clean coal power production in Illinois.

Dated: September 13, 2015

Respectfully submitted, SARGAS, INC.
