Supplementary Examination Announcement

INFORMATION SYSTEMS ANALYST III - 21167

Monthly Salary Range: \$6547- \$10163

Option N - Networking

General duties: An Information Systems Analyst III performs highly complex professional and advisory functions in the Information Technology area of networks; serves as a highly advanced specialist in engineering, planning, implementing, designing, and managing operations related to wide area network communications and technology; serves as project leader providing advice and guidance to equivalent or lower level professionals for highly complex assignments; or, may serve as a staff assistant to a principal manager of an agency's Information Technology program; provides advice and guidance in highly complex program aspects that require extensive technical research and analysis but do not entail full line supervisory, managerial, or confidential labor relations responsibilities.

Minimum Training and Experience: Requires knowledge, skill and mental development equivalent to four years of college with course work in computer science or directly related fields, and five years of professional experience in a related Information Technology field. Specific position requirements vary by position and relate to the position's duties and responsibilities as defined by the agency of employment and as approved by the Director of the Department of Central Management Services or his/her designee.

Knowledges tested: Wide Area Networks (WAN) Routing Protocols; Cisco Internetwork Operating Systems; Local Area Network Technologies (LAN); Network Services & Security; TCP/ IP.

Tests and weights: Automated multiple-choice test 100%.

****NOTE: PER THE PERSONNEL RULES AN APPLICANT SHALL NOT BE PERMITTED TO RETAKE A MULTIPLE-CHOICE AND/OR PERFORMANCE EXAMINATION UNTIL 30 DAYS HAS ELAPSED.**

Length of eligibility period: One year.
